There are templates for domestic use including the Kenmore Elite Series and are also selected by small businesses with a separate professional line for Laundry Kenmore Pro, Home Line: Top Charges machines; Twin-load patterns; Professional Coin-Operated Line: Top-Load Wash; Wash side load. While Kenmore's first wash wash is known for its bright colors and creative design, modern products of the brand have classic looks and are mostly made of standard gray and white colors. You'll find here instructions for many models of washing machines, including popular 70, 80, 90, 100, 200, 300, 400, 500, 600, 700 series. Warranty and Resistance: 12 months for most of the washing and an extended guaranty for engines. Most Kenmore Wash serves for 14 years or more in the case of domestic use. Recycling rates: Most washed are at least 95% recycling. Special features and technology Accela Wash – allow washing faster even when a machine is fully charged (full sugar wash 29 minutes). Smart Control – allows to operate any laundry device via Smartphone or similar web gadgets. Spot Boost – helps clean heavy spots and very polluted clothes by increasing the time and intensity of washing process. Steam Treats – allows removal of spots with the steam power. Filling deep holes – making it possible to control the water level for each laundry cycle. Brand Kenmore's story was first known as a producer of drop sewing machines. The brand quickly became recognized and trusted due to the high quality of its products. The first car wash kenmore was introduced on the market more than a decade later in 1927. in 1936 around a million laundry items were labeled as Kenmore retail. The company became even more popular after World War II when more than 95% of American households became electric. Sears, the owner of the Kenmore brand, has done its popular washing, paying a lot of attention on the design of the models they produce. There were limited lines and chorus - red, yellow, aquamarine and other bright colors along with white-colored washing. Kenmore remains one of the most popular producers of the elite home washing. Nearly every third home in the U.S. has Kenmore Wash or other household appliances in that brand. There's also a line of washing out Kenmore professionals who are used by businesses worldwide.
