Set in the Bradshaw Mountains along a less travelled path, the town of Crown King attracts outdoor enthusiasts, campers and back-of-the-road adventurers to its historic locales. Campgrounds in the area provide a great base for exploring the town, as well as hiking trails in Horsedook Basin Lake, Castle Creek Wilderness and Prescott State Forest. Developed by the Civil Protection Corporation in the 1930s, the Hazelette Hollow campsite is protected by a canopy of tall Ponderosa pine trees. Scattered with log Adirondack-style camping shelters, rock walls and trails infuse this semi-primitive campsite with rustic charm. Drinking water, safe toilets and picnic facilities are available on site. Campgrounds are perfect for tent camping, high clearance vehicles that pull no more than RV's up to 40 feet or 22-foot trailers. Lake Hosdodook is less than a mile from the campground. Close to Hosdodook Basin Lake, the Turney Gulch Group Campground can accommodate up to 50 people. The campground features 10 picnic tables, a historic wooden pavilion and a safe toilet. Reservations are required and can be made up to one year in advance. You must be notified at least 3 days in advance to book a group campsite. Rates vary for this campsite, and groups of 25 or fewer people receive a discounted rate. Coal camps on the edge of the Castle Creek wilderness offer rustic conditions for one night. Four-wheel drive vehicles are recommended to approach the site with trailer restrictions of 12 feet or less. Just 12 miles southeast of Crown King, Coal Camp is the trailhead of coal camp Spring Trailhead, which leads to wilderness areas. Toilets and water are not available, and campgrounds must use do-not-track technology during their stay at the campsite. Distributed camping areas are easy to find along the way from Bumblebee to Crown King. The road is suitable for rigs up to 40 feet, and the dispersed site is about a mile from the highway. The second route to Crown King is found in Prescott by using the historic Senate Highway. Steep drops and heavy snowfall make it a little more difficult for the road to access the Crown King. However, the dispersed site, surrounded by high pine trees, is easy to find along the roadside. Most of the land along both routes is the Prescott National Forest, but some private property exists. Always make sure you are camping on public land. Use no-trace technology to minimize environmental impact. Environment.
