Yes No I chose our support team looking for useful product information and answers to frequently asked questions. If you find any inaccuracies in our frequently asked questions, please let us know using our contact form. What size needle should I use? Verified Needle size depends on the fabric. For a thicker cloth, you will need a dedic needle. Needle application is often mentioned on the packaging. This is very helpful (428) How long does a needle sewing machine last? Verified It varies between manufacturers, but in general the needle will last about 8 hours. It may take longer for the needle to break, but before it will become blunt and possibly damage the fabric. This is very helpful (236) My needle keeps breaking, what causes this? Verified There may be a variety of reasons for this. The needle may not be the correct one for the selected fabric, the needle may have been set too low, the fabric may not have been properly guided or the bobbin box may have been placed incorrectly. This very helpful (44) Manual was originally published by Janome. \$5.99 This is a download manual. Please check your email after purchasing. Janome DC3018-DC3050 Sewing Machine Service-Parts Manual.
