The introduction of Crafting is an extremely useful skill that involves creating different types of armor and jewelry. This is a fairly expensive skill to learn because it involves using large amounts of resources. Often you will create items that cost less than the resources themselves. In this guide to crafting for OSRS, we explain many of the teaching methods effectively. This skill is available for both F2P and P2P players, so we'll cover both of these methods. The game always has training options. We will go around carefully so you can choose what is best for you. More Skills Guide 1-99 Guide (Fast) Method below is roughly the fastest way to reach 99 crafting in OSRS. This will cost a lot of money and is recommended if you are able to make over 5 million pounds per hour. If not, it may be better to look at some slower but cheaper methods. If you absolutely need a certain level of crafting for something, it is often best to use your time to make money and use these quick methods. Levels 1-20 - Cutting opals you will need a chisel to start cutting gems. Note that you will crush some of the gems and will not be able to get all your money back. As your level increases, you will crush fewer gems. Only a few low-level gems can be crushed, so you don't need to worry about it after level 20. Experience per hour: 25,000 euro Opals needed: 500 levels 20-27 - Cutting sapphires You won't crush gems further, so the amount you have to buy will be more accurate. Gems are a great way to get through these early levels quickly, and quite inexpensively. Experience per hour: 140,000 Sapphires needed: 106 Levels 27-54 - Cutting Emeralds Don't Forget to Sell Your Cut Gems Back on the Grand Exchange! The initial investment will be a bit steep, but eventually you won't lose too much money. Experience per hour: 170,000 Emeralds needed: 2091 Levels 54-58 - Water Battlestaves Battlestaves Can be developed using a charged elementary ball (air, water, earth, fire) on Battlestaff. Making battlestaves effectively will require you to buy them in bulk. They have a small purchase limit, so ask friends or clans to help you stock up on them! Experience per hour: 250,000 aquatic Battlestaves needed: 736 Levels 58-63 - Earth Battlestaves Earth Battlestaves a little faster than water, and depending on the prices they may be cheaper. Experience per hour: 275,000 Earth battlestaves needed: 972 Levels 63-66 - Green D'hide makers Depending on prices at a time, it may be cheaper to stick to Earth Battlestaves up to 66. It's a little faster, however, to go on D'hide at this time. Experience per Hour: 300,000 Green D'hide Enforcements Needed: 687 Green Dragon Skin Needed: 2,061 Levels 66-71/99 - Air Battlestaves Air Battlestaves Are Extremely Fast and Relatively Relatively Relatively effective way of learning all the way up to 99. The problem is buying battlestaves in bulk, but if you can stock up with friends it's a great method. Experience per hour: 330,000 Air battlestaves needed: 2315 (up to 71) Levels 71-77 - Blue D'hide makers If you decide not to go the battle route, D'hide makers are the best alternative. You will switch from blue to red, and finally to black. Note that they will get more and more expensive, so you can stick any of them all the way up to 99 at the moment. Experience per hour: 350,000 Blue Dragon Skin Needed: 9447 Levels 77-84 - Red D'hide Body Experience per Hour: 390,000 Red Dragon Skin Needed: 18,, 921 Levels 84-99 - Black D'hide Body Experience per Hour: 430,000 Black Dragon Skin Needed: 117 246 Alternative Methods Some of the above methods can be extremely costly. Not everyone can afford to use these techniques, however most crafting training will be expensive. There are several alternatives that will help reduce costs, but they will drastically decrease in experience per hour. Depending on the type of account you have, it may be more advisable to spend your time making money to use faster methods. This will ultimately save you the time you would spend using slower learning options. Levels 1-54 - Cutting opal opals is a great cheap learning method even past level 20. You end up with a lot of shredded gems, but they are so cheap that the loss of money outweighs what you tend to spend on other materials. Experience per hour: 25,000 euros Potions needed: 13,000 Levels 46-87/99 - Infirm balls you will need Glassblowing pipes and molten glass for this method. Glassblowing can be a highly profitable method when it comes to learning crafting. Most people seem to overlook it, but it's actually pretty quick and not very expensive. Infirm balls are always used by players, charging them as a way of making money. Experience per hour: 80,000 molten glass is needed: 74368 Levels 58-87 - Diamond bracelets You can craft diamond bracelets with Diamond Cut, Gold Bar, and Bracelet Shapes in your inventory. This method is a little faster than unpowdered balls and quite a bit cheaper. It's not as AFC as balls though. Experience per hour: 90,000 gold bars and diamonds needed: 39,451 Levels 74-99 - Dragonstone Bracelets Made exactly like diamond bracelets, only with Dragonstones. The downside of this method is that Dragonstones have a very low purchase limit, and it will be difficult to buy in bulk without a decent amount of money in your bank already. However, this is a fairly quick and cost effective method if you can afford enough initial investment. Per Hour: 140,000 Golden Bars and DragonStones Needed: 108,529 Levels 87-99 - Light Balls This Glassblowing Element is a little faster than unpowdered balls, however it's not not So you will lose all the money that you put in the molten glass required. Experience per hour: 120,000 molten glass is needed: 129,460 crafting quests Many quests will give you the experience of crafting upon completion. Please keep this in mind as you start to train your skills! Craft can be very expensive, so take advantage of these small impulses. 1-99 Guide (F2P) Although crafting is F2P skill, it is extremely limited. You won't have many high experience techniques available to you, however the price is much cheaper. Some methods even turn a small profit. Highly recommended as a member of F2P to do three quests Sheep Shearer, Goblin Diplomacy and Misthalin Mystery. This will give you a total of 950 experience, raising you to level 8 crafting. Levels 1-5 - Leather gloves you will need a needle, and a few threads in order to craft leather armor. It only takes just over one inventory full of skin to complete the first five levels. Levels 5-22/99 - Golden Jewelry Start developing various gold jewelry using gold bars and specific jewelry forms. Amulets and bracelets can often make good profits. If you're looking for a slow but profitable way of 99 in F2P, this is a good method. Levels 22-99 - Sapphire necklaces This method will turn a good profit to 99, but less AFC due to the only opportunity to make 13 per inventory. You will need to buy gold bars and sapphires (cut). They can be fascinated by necklaces games for P2P members, so they often sell at a good price. It's faster than sticking to normal gold jewelry, but much smaller afc. Gold bars and sapphires are needed: 236,888 Levels 70-99 - Diamond Amulets Diamond Amulets are made in the same way as sapphire necklaces, but require the shape of an amulet. This method will not make a profit, but is relatively cheap and fast. You will need to buy your supplies in segments as you re-sell them as it costs quite a lot of money. Gold bars and diamonds are needed:122,969 Experience per hour: 120.00 Skillcape Well, congratulations! You're going so far! Your pockets will probably feel a little lighter after this 99, but it was worth it and definitely a feat of achievement. Head to the craftsman inside the Crafts Guild in the southwest of Falador to claim your crafting skill and hood for 99,000 coins. Don't forget to bring a brown apron to get in. You can teleport to the Crafts Guild with your skillcape for an unlimited number of times. Wes teleport you right inside the guild, right next to the bank. In this 1 - 99 Full OSRS Crafting Guide we cover all possible techniques for crafting training in the old runescape school. The fastest way, the cheapest and most AFKable way, money way, and F2P crafting techniques. Kraft can be very quickly like other acquired skills such as herblore and prayer which is what we we in the fastest way of this guide. The second part of this craft guide is dedicated to the development of AFK with a glass-blowing pipe. The third part is all about making money with crafting and we finish off with the F2P Crafting Guide. You can use the navigation below to move on to the preferred method. What you should know before you start with crafting mushroom pie mushroom pie gives you a No.4 crafting boost, which can be handy for boosting your crafting level for quests, but also when learning higher levels so that you can unlock higher performance experiences. Where the craft is where you need to be crafting depends on your crafting method, the level, and whether you are a P2P player. The Edgeville craft furnace oven is now available to F2P players and is still the closest oven to the jar spot in Gielinor with zero requirements. For P2P players, only the best location of the oven is in Prifddinas, but it requires completing a master-level quest for The Song of the Elves. Left click Banking with bank chests If you craft everything that requires you to constantly bank you should always be set up in a chest bank spot. They can be pressed on the left instead of the usual right-clicking. Recommended places castle wars/duel arena chests as there are no requirements. OSRS Крафтинг Руководство - Быстрый путь к 99 Уровни 1 - 54 Резка драгоценных камней Резка необрезанных драгоценных камней в разрез драгоценных камней является очень быстрый способ обучения крафта с опытом ставки до почти 200K / ч. The total cost for glassblowers up to 99 will be 16-24M depending on whether you take infirm balls or light balls depending on 99. To make the glassblowing method, you will need a glass pipe. The pipe can be bought on a large exchange, or if you are an iron man, you can find a glass blower pipe in the very southwest house on Entran. You will also need molten glass and a secondary ingredient. LevelsTypeEXP/hr Total Cost1 - 4Beer glasses29k/hr1K4 - 12Empty candlelight32k/hr10K12 - 33Empty oil lamp43k/hr100K33 - 42Vials60k/hr110K42 - 46Empty fishbowls72k/hr77K46 - 87/99PowerUnpowerUnpowerUnpowerUn - 99Light orbs120k/hr19MOSRS Kraft Guide - Moneymaking Alternatives Levels 10 Bowstrings Spinning Len in bowstrings are a classic way of making money with crafting. For this method, all you need is a flax (1gp/each on a large exchange) and a rotating wheel. The best place to rotate flax in bows is Lambridge Castle, where you can spin on the second floor and a jar on the third floor. Ironman can choose flax in the linen field seers Village and use a rotating wheel on the second floor of the building next to the church before they bank. Exp Rate: 20K/hr Total profit from 1 - 99: 132M Levels 7 Levels JewelryTypeEXP/hr Total Profit7 - 22Gold BraceletN/A21K22 - 99Opal Bracelets50K/hr54MOSRS F2P Crafting Guide for F2P Crafting Guide, I'm going to assume that you don't want quick methods because they will cost you money and if you're going to spend money, you might as well buy bonds for P2P crafting. Levels 1 - 8 quests Free to play quests are incredibly short with very few requirements, so there is no reason not to do them. Completing these three quests will take you to the level of 8 craft. Sheep Shirer Goblin DiplomacyMisthalin MysteryLevels 5 - 20 Golden Jewelry Golden Jewelry Is a profitable way of learning crafting. This requires a oven, jewelry shape and gold bars to make. The best location is Edgeville as the oven is right next to the bank. Levels 20 - 99 Sapphire necklaces Sapphire necklaces will suit you 24M from levels 20 to 99.
