CostsGet it by Wed, Dec 9 – Sat, Dec 12 from Hartford, MichiganDurable UV-resisting powder-coated steel. Glass cups removed for cleaning. See details – Heath CF-131 Clementine Oriole Feeder, Steel, Orange Heath Clementine Fruit and Jelly Oriole Feederturn a bit in your backyard at an oriole food station and the Fruit Collectively Heath and Jelly Oriole Feeder. Orioles often prefer food on fruits and jelly, rather than grain birds, and this unit perfectly meets their needs. its fun, round shape and bright orange colors mimic citrus fruit, and its unique design offers orioles of their favorite foods at once. Two feet extend from one side of the disc, each foot easily holds half of an orange. A glass bowl sits on the other side of the frame, which can be filled with 2 ounces of jewelry grapes or loans horizontally. This container can be removed for proper or quick cleaning, and an attached dog makes the food outage simple. Its full metal body creates a durable station, with the bright orange, powder coated finish to protect the pieces from the elements. Give oriole their favorite snacks at once to this Clementine Fruit and Jelly Oriole Feeder.
