First I visited this place in 2016, since then I come every year. This is my home. I feel blessed to find such a wonderful place. I feel the joy and peace that comes from this place. Kriyayoga's practice is the deepest meditation I know. This place is known for its sacred Banyan tree. Mahavatar Babaji here instructed Shree Yukteswar on the importance of Kriyayoga. - Jan A B 2 years ago So ever a wonderful facility. I would advise anyone interested in visiting Kriyayoga. Also, staying here for a longer period of time - maybe 3 or 4 months, if at all possible - is preferable to staying for only one week, I feel, because the latter is not as easy to enable the same wealth of experience as the first. If you take your goals seriously, take some time off and stick to things and you will see the results. If you can not stay very long, you will, of course, see some improvement during a shorter visit, do not worry! Enjoy. - Life 3 years ago I spent 4 weeks here in Ashram. It was a wonderful experience. I highly recommend it to everyone who reads this review. The lessons/lectures are wonderful. Internships are very beneficial. I have great adoration for all the people who work here helping people and Swamiji Shree Yogi Satyam. It's a rare privilege that I've come here. I feel blessed to be realized in the presence of the Master. As an added bonus, the food is not only healthy and healing - it is tasty. Reena Gallery Message sent. We're going to get you soon.
