Dance social partner is increasingly found to be one of the best things we can do for our well-being, especially at a time when loneliness and social isolation are identified as major health risks. Unfortunately, over the past several decades, dance partner has been stigmatized and dance has become seen as a performing art rather than a social activity available to all. Sydney Fordow Dance is changing it, one Tuesday at a time. Forro is fun and easy to learn the dance style partner originating in Brazil, and Sidney Foro Dance offers weekly dance lessons for free, using dance as a means of enabling social networking and community building. People from all walks of life, of all ages, of all backgrounds find their way here and find a common language through dance. This short documentary explores the impact this community has had on those who have been a part of it in the two short years of its existence. Sydney Forró Dance is a non-profit organization, run by volunteers founded in 2015.directors:Julia Naleviko
