1880 morgan silver dollar san francisco

The only silver coins produced at the San Francisco Mint in 1880 were silver dollars from 1880-S Morgan. They were produced with care and generally with precise wall spacing. Today, they are appreciated and admired for their quality. The 1880-S combines an excellent strike and luster with an abundant supply on the market. Most of the examples have a deep and icy sheen of great beauty. Keep in mind that no evidence has been provided. All 1880-S coins are fairly common: Always around in distributed grades without running out of EF and UA coins for those working on distributed Morgan dollar sets. Bag hoarding produces beautiful MS survivors: Take your choice, MS-60 to 65 or even more, and you should be able to locate an example without too much difficulty. Much of this mint was stored at the San Francisco Mint at least until 1913 and from the 1950s, the quantities of bags from the date were released, especially in the early 1960s by the Treasury. The reverse text on the Morgan dollar reads: Freedom; E Pluribus Unum; 1880. The reverse text on the dollar liberty reads: United States of America; In God, we trust; One dollar; S.A. The avers of the silver dollar coin has a bust of a female facing the left wearing a cap and a small crown, with flowers tucked into her hair and stars surrounding the border. The reverse of the dollar Morgan has an eagle in the center with its wings spread and a surrounding crown. The Morgan Dollar series is very popular among collectors. If you have a Morgan (Liberty) Dollar that you would like to sell, please contact our experts at Coinappraiser.com and they would be happy to help. The 1880 Morgan Silver Dollar has more varieties of major attributed die in the Morgan Silver Dollar series than the Morgan dollars of 1878 or 1879. However, the Morgan dollar of 1880 is also the last year of the series for which there are significant variations noted in the number of tail feathers counted on the eagle. The Morgan Silver Dollar of 1880 was produced in four mints: Carson City, New Orleans, Philadelphia and San Francisco. The most valuable silver morgan dollar of 1880 bears the mint word CC used by the Carson City Mint. It still carries a higher value due to very low production, which in fact the rarest 1880 Morgan Dollar. The Denver Mint used a D, the New Orleans Mint an O, and the San Francisco Mint an S. Philadelphia's main currency did not use a mint mark. Examples of Morgan Dollars' evidence from all years, including 1880, are rare, making them expensive. 1880 Morgan Silver Dollar Mintage Figures 1880: 12,600,000; \$35 - 1880, 80 Over 79 years: including mintage \$35 (there are many varieties this year; value is most common) 1880-CC: 591,000 (all types); values below 1880-CC, 80 Over 79, 2nd reverse); mint included above; \$250-1880-CC, 8 Over 7, 2nd Reverse: mintage included above; \$200-1880-CC 8/High 7, 3rd Reverse: mintage included above; \$200-CC 8/Lo2 7, 3rd Reverse: mintage included above; \$300-1880-CC, 3rd Reverse: mintage included above; \$200 - 1880-O: \$5,305,000 (all types); values shown below 1880-O, 80 More than 79: mintage include above; \$35-1880-O: mintage included above; \$35-1880-S: \$8,900,000 (all types); values below 1880-S 80 out of 79: mint included above; \$35-1880-S 0 More than 9: mintage included above; \$35 1880-S: mintage included above; \$35- 1880 Proof: 1,355; Remember, the multiple varieties of wall listed above represent only the most common of those attributed to 1880 Morgan Silver Dollars. Those who closely follow the main VAM varieties (Leroy C. Van Allen and A. George Mallis) have found much more variation in die and often catalogue their values separately. The San Francisco Mint is famous for being the coin whose coins fueled the expansion of the American West. Born out of the vast wealth of the California gold rush, the San Francisco Mint struck not only gold coins, but also silver coins. The leader of them? The Morgan Silver dollar. It was the second building of the San Francisco Mint, the famous Granite Lady, where the very first 'S' mint Morgans were minted. The San Francisco Mint produced a Morgan Silver Dollar in each year they were issued until 1904, and was one of only three mints (along with Philadelphia and Denver) to hit Morgans in their last year of production, 1921. Today, coin lovers looking for the Morgans created by the San Francisco Mint for their impeccable strikes, brilliant brilliance, and exceptional beauty. Of course, all Morgans contain .77344 toz of pure silver, but this money has never been as beautiful as when it came out of the San Francisco Mint presses. The meticulous care given to the production of San Francisco Morgan Dollars has made it some of the most sought after pieces. Now you can own your own gorgeous 'S' Morgan Mint with this 1880 bonus brilliant Uncirculated condition

piece. Everyone comes encapsulated for protection with certificate of authenticity. Value of moving coins with precious metals: Up-Dated 1/18/2021: Gold \$1833 | Silver \$25.00 Currently, your Morgan 1880 silver value is \$23.64. However, this is just a minimum value of how much an 1880 carried by the traffic is worth. With his big money as a start and collector demand for the carson city show your piece has the potential for a much higher value. Of the four coins that produced silver dollars in 1880, those minted in Carson City are rare today. Add to that the huge popularity of these parts and prices are well above average. In addition, referring to the image on the right, his un circulated state stands out as much better than most 1880 Morgan silver dollars survivors. The absence of wear, the bright coloured glow and the lack of contact marks distinguish this room. As a collector's item, this is a fine example and type collectors look for. Judge the condition and mint marks closely. Various degrees of wear determine the state with values listed on the table below. In addition, mintmarks identify the mint that produced your silver dollar and are valued separately. Both are covered in detail later in the page. Mintmarks do make a difference in value. As collectors assemble sets, most include examples of each of the four coins that produced silver dollars in 1880. Identified by mint marks on the other side of the coin, these different mints are S San Francisco, O New Orleans and CC Carson City mint. The Philadelphia currency did not put a mint mark on 1880 dollars of silver. Top Condition finds the highest values The largest American coins, the silver dollars when mixed with others are heavy enough to quickly inflict deep marks and cuts on each other. Unfortunately, as part of the process of typing and storing these dollars Morgan were placed in canvas bags with another 1000 dollars in cash. Easy to imagine stacking, handling and transporting bags has resulted in a multitude of scrapes. Surviving today without marks of a thousand coins per bag is rare for a silver dollar from 1880. Such a rarity was sold by David Lawrence Rare Coin Auctions. Always retaining the original luminous glow, surfaces with the lightest minimal bumps and bruises, the photographed room attracted serious attention. Auctions continued until a collector added a gem-like dollar to his collection. Review the ranking images above again, even if your coin is distributed, the state is an important part of the overall value of 1880 Morgan Silver Dollar. Discover the Highest Value 1880 Morgan Silver Dollar The degree of wear (hopefully not at all) is a bit difficult to assess, but is a step that needs attention. Following the example of collectors, up close the state of your 1880 dollar. When you compare your room to the images, a close match of its state becomes evident. This process determines the category and the use of the graph above identifies an exact value of your 1880 silver dollar. Unoked: Morgan's highest monetary value in 1880 is reserved for unredated or also known as the Mint State. Coins in this brand new state are the highlights of the collections. The typing process gives a icy chandelier on the surface of coins. When tilted, the light on an unadddened room is reflected in uninterrupted light strips from one rim to another. Confirm that your piece is notcirculated by examining Liberty's cheek and chin area, any wear through these high points shows as a break in the shine. Extremely fine: As the silver dollars begin to show a slight wear and tear their condition is classified as extremely fine. Perceptible in the hair above Liberty's forehead and behind her neck, the flattening is evident. Wear and loss of roundness are also shown at the top of the folds of his cap. Your room in this state is still very sharp and crisp. End: Moderate wear and moderate retail loss reduce Morgan's silver dollars to fine grade. Although the wear is apparent, the main design elements of his cap and hair curls remain bold and recognizable. However, these original fine details are lost and replaced by flat areas. Good: If your 1880 silver dollar has endured extensive wear and tear, it is described as good condition. Despite a great loss of detail, Liberty's portrait is clearly separated from the field. A few lines of hair curls show behind the base of her neck. Although heavily worn some creases to the cap are visible. A once protective rim is now almost extinct and close to merging with lettering. | Coin Values Partstudy Articles Morgan Silver Dollar Values | Rare Mintmarks and Condition Highlighted Every collector admires these large silver coins, every collector wants one. Their popularity is immense. Valued at more than \$22.81 each due to the silver content alone. Check your parts with ranking images and value charts.
