They have a great combination of insanely high damage power and the defensive abilities of the tank. In this guide we will teach you how to build your Lord Knight stats, skills, equipment and run and for all three LK builds: Agi Crit, Bash and Pierce builds. Review There are three main types of Lord Knights, and each of them have its pros and cons: Agi Crit Build - auto-attackers, relies on high ASPD and Crete for damage, virtually no consumption of SP Bash Build - a versatile build, relies on high bash damage, effective against small and medium-sized mobs, is great for PvP Pierce Build - spear-wielding, relies on Pierce's skill for damage, great against big monsters and MVP Hunts Run and some equipment they need in order to cause decent damage. If you are just starting out, we strongly recommend farming Masters or Whitesmith to build. For 4es, I recommend using this table for reference. Agi Crit Knight Build Stats Build 90 Agi 60 VIT 40 LUK 40 for Agi Crit Knights, AGI and LUK will be what will make you build Agi Crit. However, you want to have at least 90 STR. After all, the fast attack speed and speed of Crete mean nothing if you don't have high base attack damage. Skill build Sword Sword Mastery 10 Increase Recovery 5-10 Bash 10 Magnum Break 1 Taunt 5-10 Endure 5-10 As Swordsman, Max Bash and Sword Skill for Damage. Get 1 point on Magnum Break for a 20% bonus damage and a Fire element. You only need 1 point here as the positive duration effect and bonus damage remains the same from Lv 1-10. For your defensive and tank skills, get increased recovery, ridicule and endure. Knight Cavalry Combat 5 Cavalry Mastery 5 One Hand Fast 10 Aura Blade 10 Max Taunt / Endure One Hand Kwicken and Aura Blade are your best friends to pump up your damage and ASPD, giving you a high overall DPS auto attack. Lord Knight Lord Aura 10 Concentration 5 Call Of Justice 5 Sword Parry 10 Head Crush 10 The rest of Knight and Lord Knight's skills are pretty simple, you want as much harm and ASPD lovers as possible. Equipment Weapons Holy Avenger Flamberge / Cutlus Off-Hand Fox Wrist Bracer - Noble Bracer Headaddress Cat Ear Beret / Bafo Horn Hockey Mask / Nut on the Head Spiked Scarf / Pipe Devil Wing Marchosias Tail Armor Mink Coat - 'Gt; Beast Heart Tights Clothing Cotton Shirt - Undershirt Shoes Rune Shoes - Rune Boots Accessory Brooch - Agi Pin Rouge Normal Sword Attack Mastery One-handed Fast Aura Blade EmpowerEd Cavalry Knight Knight Build Stats Build Pierce and Bash Knights only only Maximum two stat attributes: STR for maximum damage and VIT for tankiness and survivability. Just rush to STR as much as possible- you won't need to take the damage if your targets are dead in 1 stroke! You can put a little DEX early on for some HIT, but at the end of the game you can rely on Ran and Lord Knight Concentration skill for 50 HIT. Skill to Build Swordsman Bash 10 Sword Mastery 10 Magnum Break 1 Taunt 10 Endure 5/9 Increase Recovery 4 (if tolerated 5) Bash will be your main offensive bread and butter skill (spirit). The Bash Knights almost overpowered during a late game. Once you complete your gears and 10 Bash Runes, your Bash will cause an insane amount of damage, capable of 1 or 2-shooting your goals, not to mention the 30% chance of stunning. The Bongun card deposited in your Handbook is very important for increasing your Bash damage. Get 1 point on Magnum Break for a 20% bonus damage and a Fire element. You only need 1 point here as the positive duration effect and bonus damage remains the same from Lv 1-10. Knight Cavalry Fight 5 Cavalry Mastery 5 Heart steel 5 One-handed Kwicken 5 Bowling Bash 5-10 Max Endure / Increased Recovery Aura Blade 10 Heart steel is a great skill for tanks. Leave one hand to Kviken at 5 as a requirement for Parry LK's sword. Bowling Bash is an optional offensive skill. Aura Blade does not affect Bash damage, only automatic attacks. But at the end of the game, there is a Run that gives an ATK bonus based on its skill level. By then you should have maxed it. Lord Knight Concentration 5 Aura Lord 10 Head Crush 10 Call Of Justice 5 Sword Parry or HP Alight and Frenzy As Lord Knight, most of your skills such as the aura of the Lord, Concentration and Call of Justice are all necessary buffs to increase your damage further. The rest of the skills are more defensive and optional and depend on your preferences. Equipment Weapon Cutlus - Nagan Off-Hand Floral Bracelet - The Rose Bracelet Headgear Cat Ear Beret / Bafo Horn Hockey Mask / Nut on the Head Spikes Scarf / Pipe Devil Wing Marchosias Tail Armor Tights Clothing Ancient Boots Cape Rune Shoes - Rune Boots Accessory STR Ring - The Moon Broch Flower Ring - The Frozen Roses Ring Mathir's leash for MVP Hunting Run Bash 10/10 Ignore Def Sword Mastery - Advanced Sword Mastery Aura Blade Empower cavalry Knight Concentration Pier Build Stats Build Pierce and Bash Knights need only max two stats attributes: STR for maximum damage and Just rush to STR as much as possible- you won't need to take the damage if your targets are dead in 1 stroke! Knight Cavalry Fighting 5 Cavalry Mastery 5 Pier 10 Spear Mastery 10 Heart Became 0-10 Aura Blade 10 Pier will be your main offensive prowess. The main value of Pierce's skill lies in its damage modifier size - it does 1/2/3 times more damage to small/medium/large monsters, respectively. That's why the Pierce Knights are great for MVP hunting as MVP bosses of big-sized mobs. Aura Blade does not affect Pierce's damage, only automatic attacks. But at the end of the game, there is a Run that gives an ATK bonus based on its skill level. By then you should have maxed it. Lord Knight's Aura Lord 10 Concentration 5 Call Of Justice 5 Spiral Pier 10 HP Alight 5 Frenzy 5 As Lord Knight, Aura of the Lord, Concentration and Call of Justice - all necessary buffs to increase your damage further.
