The sharper image smart universal jumbo remote manual

Word مستندات في Google، يمكنك عرض بعض مميزات GE Big Button Universal Remote Control til Samsung, Vizio, Lg, Sony, Sharp, Roku, Apple TV, RCA, Panasonic, Smart TV, Streaming Players, Blu-Ray, DVD, 2-Device, Silver, 33701 Copyright © 2021 Multiply Media, LLC. All rights reserved. The material on this site may not be reproduced, distributed, transferred, cached or otherwise used, except with the prior written permission of Multiply. Jumbo Remote Information Follow these steps to program a device in your remote control. There are two ways to program the remote control. If you already know the code for your device, you can program it into the remote control manually. If you don't know the code, you can use the code search feature to program the remote control. Using code search:1. Turn on the device you want to program for the remote control.2. Point the remote control at the device3. Press and hold the Code Search button for about 3 seconds until the light on the remote control remains on. 4. Press the button on the remote control of the device you want to program. Press the TV button to program the TV, press the DVD button to program the DVD player, and so on. The light on the remote control flashes and stays on.5. Press and release the power button repeatedly until the device is switched off. Each time you press the power button, the light should flash once. 6. Press Enter to save the code to the remote control, which turns the light off. Programs a manual code:1. Turn on the device you want to program first, such as a computer. Point the remote control at the device.3. Press the remote control button that corresponds to the device. To program the TV, press the TV button.4. Press the Code Search button for about 3 seconds until the light stays on.5. Enter the code for the unit using the number block. The light flashes every time you press a button. If the code works, the lights will turn off. If the light flashes, it means that the code did not work. There may be multiple codes for a device. If a code doesn't work, start from the beginning by holding down code search until the light stays on and using a new code. 6. Press the power button to test whether the device is turned off. It does not turn off, repeat the process with a new code. Retrieving your device's code: If you have used the code search function to program your device and want to know the code for later use, you can retrieve the code from the remote control. To do this:1. Tap and hold the code search for 3 seconds until the light stays on.2. Press the device button for the code you want to download. Press TV to get the TV code, etc. The flashes once and stays on.3. Press the number buttons from 0 to 9. When the light flashes once, it signals the first number of the code.4. Repeat for 2. The light will turn off after you download the third digit. Programming the sleep setting:1. Press and hold the SLEEP button until the light stays on.2. Use the number block to enter 2 digits for how many minutes hours to use for the timer (01 to 99 minutes). The light turns off and begins timing.3. Make sure the remote control is pointing to the device.4. To cancel the sleep timer, press the power button once, or hold down the sleep button until the light flashes once. Programming the Sharper Image jumbo remote simply requires a programming code, a device to program, such as a TV or DVD player and jumbo remote control. The Jumbo remote control is capable of programming up to eight different devices that can be controlled by the remote control. There are two ways to program sharper image jumbo remote control, either enter the device code in manually or perform a code search through the remote control with the device turned on. Follow the steps below to program the desired device to work with the Sharper Image jumbo remote control. Use code searchTurn on the device to be programmed and aim the remote control at the device. Press and hold the Code Search button until the main beam remains on. Press the appropriate device button on the remote control, such as the remote control. Press the power button until the device is switched off. Press enter to save the code. Manually enter the codeTurn on the device and aim the remote control at it and then press the appropriate device button on the remote control. Press Code Search on the remote control until the light remains constant. Enter the code of the device that came with the manual or that was located online. If the code worked, the lights will turn off. Press the power button to turn the device off and test the code. Press enter to save the code. Code.
