This is the hallmark of some of the most famous watches ever created, notably the Movado Museum® Watch.CARE AND MAINTENANCE Like any finely crafted mechanism, your Movado watch requires periodic maintenance to ensure optimal performance. Maintenance includes complete disassembly, cleaning, replacement of parts as needed, assembly and motion lubricant. In addition to any necessary battery replacement, a maintenance interval of 3 to 5 years is recommended. Never open the watch yourself. If your watch needs repair or adjustment, take it or send it directly to Movado Authorized Service Center. CARE AND MAINTENANCE OTHER TAKE: If your watch is equipped with a screw down crown or pushers, be sure to screw them back down in case after each surgery. Waterproofness only applies to the case of the watch; Some watch straps should not be worn underwater or exposed to wet conditions. Please watch Strap Care. Avoid subjecting the watch to sudden and excessive temperature fluctuations. Do not lower the watch or hit it on a hard surface. CARE AND MAINTENANCE Battery Info Movado quartz watch has a 1.55 volt silver oxide battery that is specifically designed for watches. It will last approximately 18 to 36 months with normal use. NOTE: Frequent use of special features, such as a stopwatch timer on chronograph models, can shorten battery life. End of life function: The second hand on many models will start to move with a stop in 4-second increments, when the battery is almost exhausted, signaling the need to replace it. OPERATING STANDARD 2-HAND MODELS AND AUTOMATIC includes most Movado Museum Dial FIGURE A Crown: Position 1 - Normal Running position. The crown pushed into the case. Case 2 - T o set TIME: Turn the crown in either direction. To go to a different mode, you must first stop the chronograph and reset the oncoming display to zero. However, you can choose and use other watch features while the chronograph is running. Alarm: 1. Choose Alarm AL. 2. Pull the crown into position 2; Figures indicating the clock and minutes begin to flash in the lower display. 3.AUTOMATIC CHRONOGRAPH 1/1 OF A SECOND - TYPE A Includes original Movado Circa, Movado Master and Vizio automatic chronographs P LEGEND: H - Clockwork M - Minute Hand S - Small Seconds Hand C - Chronograph Seconds Counter D - Chronograph 12-hour counter E - Chronograph 30-minute counter J - Date mapping P - 30 3 - Crown Position - Chronograph Push Button (Start/Stop) B - Chronograph To Press Button (split-time/reset) R - Fast Date Correction FIGURE These automaticAUTOMATIC CHRONOGRAPH 1/1 A SECOND - TYPE includes Movado Circa, Movado Master and Vizio automatic TIME/DATE SETTING IMPORTANT: The crown should be in position 1, and the hands should be at zero before the chronograph is launched. If necessary, press the B button to reset to zero. Do not use a chronograph while the crown is stretched into position 1. We don't work with the A and B chronograph buttons while the watch is underwater. NOTE: The Hand S is a second hand for standard timekeeping. AUTOMATIC CHRONOGRAPH 1/1 OF A SECOND - TYPE A includes the original Movado Circa, Movado Master and Vizio automatic CHRONographs FIGURE D To measure heart rate (only selected models): (see figure D) Your automatic Movado chronograph can also have an inner bezel ring calibrated to measure your heart rate, using a C. Find the pulse. 3.AUTOMATIC CHRONOGRAPH 1/1 OF A SECOND - TYPE B includes new SE automatic chronographs manually before setting time or operating the functions of the chronograph: 1. W ith crown in position 1, flush against the case, rotate the crown clockwise in about 20 revolutions. 2. Reset time according to the instructions below. TIME/DATE SETTING To set the time: 1. Pull the crown to position 3; Watch the stops. 2. AUTOMATIC CHRONOGRAPH 1/1 OF A SECOND - TYPE B includes new SE IMPORTANT automatic chronographs: The crown must be in position 1, and the hands must be at zero before the chronograph starts. If necessary, press the B button to reset to zero. Do not use a chronograph while the crown is stretched into position 2 or 3. We don't work with the A and B chronograph buttons while the watch is underwater. NOTE: The Hand S is a second hand for standard timekeeping. AUTOMATIC CHRONOGRAPH 1/1 OF A SECOND - TYPE C includes new Datron NOTE automatic chronographs: Hand movements during normal daily activities should be enough to keep the watch automatically wound. However, if you haven't worn the watch for more than 48 hours and it's stopped, you'll need to wind the chronograph movement manually before you set the time or operation functions of the chronograph. 1.AUTOMATIC CHRONOGRAPH 1/1 A SECOND - TYPE C includes new DATRON automatic chronographs IMPORTANT: the crown must be in position 1, and the hands should be at zero before the chronograph is launched. If necessary, press the B button to reset to zero. Do not use a chronograph while the crown is stretched into position 2 or 3. We don't work with the A and B chronograph buttons while the watch is underwater. NOTE: The Hand S is a second hand for standard timekeeping. AUTOMATIC 3-HAND MODEL WITH ANIMATED 24-HOUR UNIVERSAL TIME INDICATION includes Movado Red Label Calendomatic Universal Time Model NOTE: Hand movement during normal daily activities should be enough to keep the movement of your fine Movado automatic wound clock. However, if you haven't worn the watch for 38 hours or more and the clock has stopped, you will need a wind breeze Manual before setting local time or universal time indication: 1.AUTOMATIC 2-HAND MODEL WITH MOON PHASE DISK AND DATE INDICATOR includes Movado Red Label Planisphere model LEGEND: H - Hour Hand M - Minute Hand L - 2-month Phase D - Date A Indicator - Phase B Button B Moon - Button Corrector Dates Crown Position: Position 1 - Normal Position. The crown pushed into the case. AUTOMATIC 2-HAND MODEL WITH MOON PHASE DISK AND DATE INDICATOR includes Movado Red Label Planisphere models To correct the moon phase indicator: NOTE: These models have a two-month moon phase indicator: the moon phase disk takes 59 days - cycling through two full and two new moons - to complete one complete revolution in subdial L. Use the narrow end of the supplied corrector tool to operate the Moon A phase corrector button at the top of the case at 12:30 p.m. AUTOMATIC 2-HAND MODELS WITH MOON PHASE APERTURE AND DATE INDICATOR includes Movado Red Label Skymap to set the time: 1. Pull the crown to position 2; Watch the stops. 2. Turn the crown in any direction to move your hands at the right time, making sure that the specified date changes at midnight, not at noon. 3. Push the crown back to position 1; Watch the reboot, now set to fix the time. DIGITAL L.E.D. TOUCH-SCREEN MODELS WITH TWO TIMES AND MONTH/DATE DISPLAY includes the Movado BOLD touch 12-hour format; DATE mode is displayed in month/date format. One of the three smaller LED displays under the main indicates which mode is active. The touchscreen crystal is specially processed to withstand fingerprints/smears. DIGITAL TOUCH SCREEN L.E.D. MODELS WITH DUAL-TIME AND MONTH/DATE DISPLAY includes Movado BOLD Touch-Screen Digital NOTE: If a 5-second LED display is activated five times a day, the battery life spans 24 months. More frequent operation will reduce battery life. SETTING TIME/DATE: You can enter customization mode from any of the 3 display modes - TIME1, TIME2 or DATE: 1.ROTATING BE'S Select Movado sports models have a single-directional bezel to measure past times. The engraved bezel rotates counterclockwise. It can be used, for example, to monitor the number of minutes left during a snorkeling expedition or a similar group trip: 1. Align the arrow marker on the bezel with the current position of the minute hand. 2.SCREW-DOWN CROWN Many Movado sports watches and chronographs are equipped with a special screw-down crown that helps seal the case against water and moisture. Before trying to set a time or date, you must first unlock the screw down the crown by turning it counterclockwise until it weakens (approximately six rotations). As the watch has been installed at the right time and date according to the instructions, the crown must be screwed back into the enclosure to ensure waterproof. 1.OBTAINING SERVICE SERVICE The Movado watch requires maintenance or repair, you can take or send it to any authorized Movado service center. For the most up-to-date and complete worldwide list, visit www.movado.com.
