Envelop your musical experience with a floating visualization under the on-screen navigation panel. MUVI is the first app of its kind that displays a music visualizer under your Navbar while you listen to your favorite music from your favorite apps. You don't have a Navbar on your phone? Don't worry, you can still make the app show Visualizer over your Navigation equipment.MUVIZ not only enhances your music experience, but also enhances your video experience by showing visualizations over your favorite video apps like Youtube, MX Player, etc., your lyrical video collection is no more boring set of scrolling texts. You have the option to choose from a growing set of stock visualization designs and, it doesn't end up there. You can customize every aspect of the promotion design to suit your needs. The setting includes colors, shapes, size and everything you can imagine. Still not satisfied? Then you have the opportunity to create your own visualization design with our Creator tool bundled into our app. Cool na! Go ahead and enjoy! Frequently asked questions Why is visualization under the navigation bar hidden when running some apps such as Spotify and Chrome? These apps use their own style of navigation bar, which cannot be override. Use a visualization position like above Navbar to enjoy Viz over these apps. Why does visualization hide when the keyboard is active? Visualization is intentionally hidden to avoid interference with input. WHAT NEW OPTION to show visualization only on selected apps - Option, to disable the permanent notification - Fixed the problem when choosing AppsScreenshotsDownloadsMUVI! At runPhone Arena - Muviz identifies a cool audio-visual navigation bar on your Android phone, Android Police - it's quite clear that you're such a thing-developers - working on innovative audio that almost every Android phoneAndroid Authority - Muviz graphics pure music scene on your navbarPhandroid - Ultimate Music Visualizer Provide access to Availability - Recognize and apply the switch required to play music. Allows you to record audio - music from other programs is required to make a data visualizer. Why are some of their music visualizer app not responding properly? Whether the app visualizes the apps for the music and video players that offer them. This makes the occasional change that we were sent from some dummy audio sme famous application. When an app sends bogus data, a warning is displayed. Why not appear on the navbar Visualizer hardware? Please select the Visualizer Visualizer app settings display device with hardware status, navbar, up'. Why start some programs like Chrome if it is hidden by Visualizer navbar? These programs use a style of bar self-navigation that cannot be override. Using Joy, top navbar Visualizer mode apps. Why does a visualizer allow a keyboard when it's hidden? The visualizer intentionally hides an obstacle to avoid writing. When can't I provide us with Visualizer? This is because the security feature, give permission to Android when overlaying the screen is a public unit. Before you take the music to change the permission to pause for a moment. It took Visualizer to allow us to impose and prevent other applications. In the report, please refer to protected email access instructions that need to be overworked for a long time.- Improvements and bugs. Unlock Pro features;Disconnected/deleted unwanted permissions - receiver and services; Analytics/disable Crashlytics. MUIS Nawbar Music Visualizer content rating 5.0.2.0 Apk Pro is.
