QuickShortcutMaker 2.4.0 APK This application can create an application shortcut from the list of activities installed on your phone. Even if there are so many glitches installed, you can choose an activity seamlessly. You can also use QuickShortcutMaker to search the app you don't use very often, you might not have shortcuts for it. Therefore, you may need to search for your app from a list of many apps. Even if you know the name of the app, it's hard to find. In this situation, QuickShortcutMaker will help you find the app. That might come in handy. But please use it on yourself! You can make incisions to hidden setup screens that are usually inaccessible. Even if you encounter any problems using this application orshortcuts generated by this application, I have no responsibility for it. Please make sure to use this app only on yourself. About Internet Access Permission: From version 2.0.1, to further improve your app, you'll be asked for a network access add-in so the app can send an incorrect detailed report to the developer. The app only uses the network to send error reports. And when he calls, a confirmation message will be played, so please rest assured.
