Before you settle for another binge-watching session on your favorite show, consider embarking on one of America's most beautifully preserved national parks. Whether you're going solo or traveling with a group, there are activities for anyone who can range from the standards, like swimming and hiking, to the most unusual things to do in America's national parks, like climbing a waterfall of ice or snorkeling between shipwrecks. Regardless of the time of year or weather, always check with the park service before visiting to make sure that the park is open to the public because the activities you are interested in are available. Otherwise, you can load everyone back into the car just to come home disappointed. Forget playing in waves, pipes, wakeboarding, the White Sands National Park giving you the chance to bring a sandboard or sled to use on the massive sand dunes. Panels are available to rent just outside the park, or you can bring your own, or pick up one of the souvenir shops. Your first time sledding the dune, take it slow and don't underestimate the speed you can pick up coming off these dunes. Hike a smaller slope and glurt down to get used to the sport before trying a larger sandshed. Remember sand is unforgiving as snow and it is common for people to get out of this experience with a few scratches if they are not careful. Kayaking downriver or across a quiet lake can be exciting, peaceful, or a mixture of both, but kayaking through the caves of the Channel Islands just outside L.A. is just awe-inspiring. You can start your trip with a ferry ride to the islands where you get the chance to do some dolphin and whale watching Jumping into the real reason you're there. Tour operators will take you to the partially sunken sea caves in the group, or you can go out on your own. However, even experienced kayakers should be prepared for unique dangers caused by cave boundaries. If you or your travelling friends are less experienced in kayaking, it's best to go with the tour group. Don't worry, the tours take more than three hours, so everyone gets a chance to lead the research through the caves and there are enough opportunities for photos and breaks between rowing. If the sun isn't your thing, or you're looking to go somewhere a little less traveled than the sandy beaches of the southern beaches, Denali National Park may be what you're looking for. To see Denali in its best light go in winter, but be sure to dress warmly for the Alaskan climate. Denali dog sled expeditions offer dog sledding tours that allow them to take the reins of the sled, learn to meddle a Huskies team, and perhaps even spend time with the annual litter of puppies if you go at the right time of year. For the truly adventurous, you can take the dog sled on night tours, stay in cabins around the park when the sun goes down. It's one experience that just can't be replicated without the north snow. Related: 10 national parks that look more stunning in the snow for most Americans, pictured rocks Lakeshore National in Michigan and is a little closer to home than the Alaskan desert, but this park has its share of winter activities to get you out of the house. One such event is climbing the frozen waterfall at Munozing Falls. To be clear, it's not climbing the rocks near the waterfall to get to the top. You'll be climbing the real ice of the waterfall. Climbing a vertical sheet of ice is a daunting proposition for most, but keep in mind that if you take proper precautions, use the right equipment, and hire a qualified instructor, you can expect the experience to be exciting, breathtaking and safe. Beginner climbers can always opt for easier challenges to get a sense of ice climbing without diving into a situation they don't feel ready to take on. National parks are not just roaming the desert or admiring the stunning beauty of the natural landscapes. In Colorado's Mesa Verde National Park, you can explore ancient Puebloan ruins for a sense of early culture and fascinating culture set in the cliffs of the ancient Pueblo people. On your own, you can stand in countless amazing perspectives and take a look into the cliffs. Alternatively, if you book a tour with Ranger Park, you get the chance to climb a 30-foot ladder straight up a cliff face before scrambling into the medium-sized cliff house, known as Balcony House and standing where people stood generations ago. There are also other cliff houses to explore, such as Cliff Long House and Step House. The Cabrio National Monument in California gives you the opportunity to see what life is like beneath the crash waves of the ocean. As the tide rolls out to sea, it reveals the fragile ecosystem of the tidal pool that all will see and explore. Make it family and show children anemones, octoporas, and live stardom in their natural habitat. Just remember that the plant and animals here is gentle, so be careful where you go and what you touch. A great way to explore the tidal pools is with walking and rangers guided which is available during most tides. Before you go, check out a tidal chart, so you know when a low tide will occur. Head 70 miles west of Key West, Florida, on a boat or seaplane to find tortoga national park dry. The park is mostly ocean, encompassing 100 square miles, but one percent of this location is dry land in the form of seven islands. Fort Jefferson, a 19th-century military fortress, is on the second largest island, Garden Key. The vast fortress was never attacked during its years of operation, but during the civil war the port was used by Union warships to block southern shipping. He also served as a prison for Union defectors, including Dr. Samuel Mudd, who organized John Wilkes Both's broken leg. Florida is home to another entertaining national park known as Biscayne National Park, where you can dive or snorkel in coastal waters following a marine heritage trail. The underwater trail leads you through six different shipwreck sites from the 1800s to the 1960s and The Fowey Rocks, built in 1878. Erlon Afkar, Mandalay, the sixth wreckage of an unknown 19th-century vessel, and the waters beneath the Foy Rocky Lighthouse are the best options for snorkeling, due to the shallow waters in which they reside. It's best to leave the wreckage of Earl King, Alicia and Logan to those with certification and scuba gear. Sequoia National Park and Kings Canyon in California is home to the largest tree in the world, known as General Sherman. The trunk has a perimeter of 30 feet at its base and is 250 feet away. Walking along the Great Tree Trail takes you to a land of giants as the vast sequoia tower above you. If walking among monster trees isn't enough to excite you, Gao to Redwood National and State Parks with Floros, a specialist experiential travel operator. There you will be trained and harnessed, so you can climb stunning California Edwood trees that can reach up to 100 metres in height. Related: 20 American treasures to see now – before they disappear back in California's Channel Islands National Park, you can do more than just kayak through the sea caves if you have the right equipment. Those qualified to dive can explore the vast seaweed forest, which is home to a myriad of aquatic life forms, including Garibaldi Thorny lobsters and sea otters. If there is no scuba diving certification, but want to experience this water, consider renting snorkeling equipment and explore the expanses of algae forest that are a little closer to the surface. You can even get guided diving and snorkelling tours around the Channel Islands with the Channel Islands Adventure Company. The idea of a national park makes most people think of a natural habit within the traditional boundaries of their country. However, American Samoa National Park is located 2,600 miles southwest of Hawaii on the American island of Samoa, where the local population offers a unique home experience for adventurous tourists. A homestay is your home with a local family. This means living in a traditional home known as fale, eating traditional foods with family, and helping with everyday activities, including cooking, cutting and drying on the likes, weaving mats, and other everyday tasks of American Samoan culture. Related: 20 spectacular residences in America's national parks after staying in American Samoa or sledding dogs through Denali, something a little less extreme might be called, while maintaining the realm of exceptionalism. Stand-up paediaboarding is growing in popularity and is enjoyed in many different national parks. Still, Lake McDonald in Glacier National Park is one of the best locations for its tranquillity, beauty, and accessibility to water. Don't worry if you've ever been on a standing rowing board before; The wide board provides a great place to get your place, and if you fall, the only cost is the refreshing water. Rent a surfboard or bring your own and enjoy the stunning sunset over the lake. Before bedtime from Glacier National Park, spend two hours driving the iconic sun road and drafting the extraordinary natural sites from the comfort of your vehicle. A road going into the sun, or through the sun as it is shortened by park workers, is a two-lane road that leads straight through the park, even crossing the inland divide at 2,656 feet high in Logan Pass. This ride will take you through glacier lakes, cedar forests, alpine tundra, among others, and you can even download an audio tour to listen to while you drive. However, not all vehicles can drive the sun way. Check the park's webpage for exact vehicle regulations before setting up. Also, keep in mind that peak seasons can extend the amount of time it takes to drive the sun road due to increased movement. Swimming in boiling water seems like a bad choice for those looking to live another day, but the boiling river in Yellowstone National Park is one watery task to consider. Typically, you can't swim or soak in yellowstone's lakes and rivers because of their cold water and risk of hypothermia. However, naturally warm Can bring the water to a boiling temperature. There's an area where the hot water of the boiling river and the fast current of the Gardner River meet and combine, near the Mammoth hot springs. There you can swim during the designated hours in the bubbling pool, then return to the hot springs for a leisurely dip. Before reaching the river, stop at the Mammoth Hot Springs Visitor Center for directions and rules to ensure their safety. All aspects of life look different in 2020 - and that includes Black Friday shopping. Major retailers already offer seasonal deals and promotions in their online stores, so you can stock up on gifts for friends, family, and maybe even yourself. Yourself.
