DescriptionSuperSoftTech (free)SuperVPN Free VPN client is a popular choice for Android users who want to encrypt their internet traffic. With it, you can use WiFi through an encrypted network, keeping your data safe and your identity anonymous. This VPN guarantees unlimited bandwidth, and the speed is high enough to view and HD stream. It offers up to 26 Mbps to download, and downloads peak at 55 Mbps, which is more than enough for regular users. The only downside is that it takes about 8 seconds to run, leaving you unprotected during that time. SuperVPN Privacy Registration will register your original IP address. This process is standard and ensures that it will not be blacklisted. Your IP is stored in the UK or on US servers. Later, the app takes a lot of personal data to work. Easy to use This software is incredibly easy to use. It comes with multiple settings for you to change - there are a connection button, a list of servers and a menu of simple features. All you have to do is choose among the four servers and connect to it. This VPN is not the best there. This is acceptable for everyday use when it comes to speed and ease of use. However, it does not offer additional privacy features. Users who are charred with sensitive data should search elsewhere. TechnicalTitle:SuperVPN Free VPN Customer 2.5.9 for AndroidRequirements:Android 6.0,Android 4.2,Android 4.2.2,Android 4.1,Android 5.0, Android 4., 1.1,Android 8.0,Android 4.1.2,Android 4.2.1,Android 4.3,Android 4.4,Android 7.0,Android 9.0Language:EnglishAva Languages: License:FreeDate Added:Tuesday, October 15, 2019Source:SuperSoftTechhttps play.google.com/store/apps/details?id=com.jrzhnfreeSHA-1:c763fa2454d121f41978872358a26ea92e456e96Megles we have no change log information yet for version 2.5.9 SuperVPN Free VPN client.
