If you had an old APK Spotify Premium Free to listen to free Spotify music you probably got a message stating that they found out outside of normal activity in the Spotify app and that they would disable it. From Androidbasico we wanted to find another way to be able to download the new APK Spotify Premium with which you can have and enjoy all the music for free. The goal of this site is that you can enjoy all the music for free in 2020 on your Android mobile phone or tablet. With Spotify Premium, you can access any song on your mobile phone or tablet, listen to any artist's songs, create your own lists and access all the features of the Spotify app, free and unlimited. How to download Spotify Premium Unlimited Free Course that many of you know all the benefits of having a Spotify Premium, but, for those who don't know, we'll make a small resume: You'll enjoy songs without advertising, in addition, we can listen to all the songs we want without having to be random or random. With this tutorial you will be able to download and have all the Spotify Premium offers for free. Remember that Spotify is one of the most used Android apps, but its price is somewhat high, so we bring you an alternative to make your premium service free and unlimited. Before you start the lesson, you need to know that you need to remove all Spotify-related apps that you've installed on your mobile phone, and activate the installation feature of unknown terminal sources found in: Settings - Security - Download Spotify beta APK Why should you download Spotify beta? It's very easy to answer. The Spotify beta is free and is a modification of the original Spotify Premium app. You just have to click on Spotify Beta to download the link and we'll be able to have Spotify Premium completely free of charge without getting annoying ads, being able to listen to our favorite music without random modes, access to all the features,... The only downside that we find in this app is that the developers have not yet managed to get us to download music to our mobile phone or tablet to be able to listen to songs without having to have the Internet. The problem is that Spotify has all its songs and developers have a hard time getting the key. Here's another link: [Click here](#) Another option is to install a Spotify Downloader. Once you install the app you have to go to your Spotify and you will have to add all the songs that you want to download to the playlist, without restrictions, whatever you want. If you have all the songs you have to go to your library, search for the created playlist and select it, you'll give three points at the top of the screen - share - zgt; Copy Link. Once this is done, you'll open Apk from Spotify Downloader, previously downloaded, click on the three dots that appear at the top of the screen and click on add playlist. Once there you can click on the URL and you can listen to all the free music from Spotify or download it to your cell phone. Here we teach you how: Download music for free Despite what has been said above, the Spotify Beta app is very similar to original, Spotify Premium. Spotify Premium APK Free: Features and features If you browse the Spotify apps that we left you you, you'll be able to confirm that they have absolutely all the features that Spotify Premium has, but are modified so that you don't have to pay for the app. Except for downloading songs, but you can decide with this tutorial to download the songs for free. In Spotify beta, you can browse and find everything from the most up-to-date songs to the most shared lists. In addition, the radio can be used. You can go to our multimedia library where you can find all your favorite songs organized exactly the way you want. The interface is very simple and intuitive and works great. I'm sure the spotify beta will save you a lot of money from now on. Many of you don't need the opportunity to download songs and listen to your favorite Wi-Fi songs in your home. Free trial surfing to have Spotify Premium Free Forever and Ad-Free Trial Surfing is also one of the best options available to be able to have Spotify Premium free forever. Specifically, it is a tool that belongs to the DoNotPay (app, so this is an application in which we will need a pseudonym and a free virtual credit card that will help us join Spotify without any problems and then not have to pay anything. Why? Well, because the best thing about free trial surfing is that it's an app designed to unsubscribe from the service that we automatically subscribed to. So we won't sneak past the receipts in the second month, so we can take the first month for free and have Spotify for free. Free trial surfing is a 100% legal tool and also has the support of one of the world's most important banks. Initially, the app is only available for iOS, although it has early access for Android, although it will need to be noted on its official website (. Change your mobile ID to have Spotify Premium Free Another option that can be effective to have a Spotify Premium Free to change your mobile ID. To do this, once you've downloaded the Spotify app and created your account, you can enjoy Spotify's free trial period for a month, listen to all the music for free, and enjoy the rest of the service features; but by doing this your mobile ID is registered so that then it is impossible to reapply for the free trial version of Spotify from the same mobile phone, so you need to change the identification code and thus request new trial periods If you want to change your mobile ID, you have to be the root user of your Android mobile, as well as download the Device ID Changer app, which is available on Google Play. Now that you've downloaded the Device ID Changer app, you have to open it and select the Random option so that the Changer device ID can select a new ID for your mobile phone. Once this is done, you will only need to restart your mobile phone and repeat the steps after the free Spotify Premium account. You also have to make an account with the new spotify. Create various accounts month after month to have Spotify Premium Free, knowing that Spotify is free for the first month without any problems, we can also choose this option to have Spotify Premium free, but of course once this month's subscription has passed, the service charge will begin. What we have to do is unsubscribe from this first premium subscription, thus going back to the main, but if we have another email, another card number and create another user, we can sign up for a free month again, creating new accounts every month. Or also take advantage when they launch special offers such as those that sometimes make famous when we can choose 3 months free Spotify Premium. so that we can enjoy the service at all costs.
