O O Dragon is the first gemstone dragon not to have wings. The Sapphire Dragon cannot breed with any other dragon, including creation with another Sapphire Dragon. The Sapphire Dragon is the first adult dragon that is able to sleep. Initially, sapphire Dragon was available at level 14, but level availability was changed on October 9, 2013, to level 16. On June 15, 2016, the description of the Sapphire Dragon was slightly changed. The last line of the previous description was: Sapphire dragons, like all gem dragons, cannot breed. On June 22, 2016, an extra line was added to the end of the Sapphire Dragon description stating: This dragon cannot breed at this time. Possible References Dragons Egg Makers Notable Buildings Friends Decorations Community content is available in CC-BY-SA unless otherwise noted. It's September, and the Sapphire Dragon is the precious stone dragon of the month. What is the best combination to create it, and what is the incubation time? Posted by Dr. Macenstein on Friday, August 31, 2012 · 1.034 DRAGON Sapphire Comments: INCUBATION TIME: 30 HOURS PURCHASE-IT Price: ?? GEMS HOW TO BREED: Rain and Mountain (This guide is part of a larger dragonvale breeding guide. For the full list of reproducts dragons, click here. If you want to help support my creations and hatchets to discover the latest dragon combos for you, please send me gems – GameCenter ID = Dr Macenstein & MacensteiniPad. From you can give us both gems by inserting my friend code in the RESCUE section in SOCIAL. It's 5074276. Thank you! The 1st Egg is the DragonVale Sapphire Dragon Egg Related So far I have received a dragon of Jade and Lapis of mysterious eggs, but I have had no luck in creating the gem dragons. I see now the sapphire dragon is the only one available. Does this mean that if I create mountain/rain I have a 1% chance of getting another jewel dragon? I love my jade guy but I want all the jewelry guys, if possible, to make my girlfriend jealous. Any help with this would be appreciated. The Sapphire Dragon is a special Gemstone dragon available only to DragonVale players during the month of September. This bright blue dragon is unlocked at level 16, and can only be created by pairing the Rain Dragon with the Mountain Dragon. 1 Make sure you're at level 16 or higher in DragonVale. Your current level status is displayed in the upper left corner of the DragonVale Home screen. [1] Tap Goals on the DragonVale Home screen and complete the featured goal list if you're not at level 16. Completing the required goals will help you advance to level 16. 2 Tap the Play Cave or Epic Play Island, then tap Breed. 3 Select the Rain Dragon from a column, and the mountain of the other column. The Sapphire Dragon can only be created by pairing the Rain Dragon with the Mountain Dragon. Mountain, the Rain Dragon pairing an air element dragon with a water element dragon. The three main pairs of dragons that have been proven most effective in producing the Rain Dragon are the Dragons Air + Water, Aquatic Dragons + Sonics and Blazing + Water Dragons. Create the Mountain Dragon by pairing a cold element dragon with a earth element dragon. The top three pairs of dragons that have been proven most effective in producing the Mountain Dragon are the Cold + Earth dragons, the Snow + Ghost dragons, and the Air + Ghost dragons. 4 Tap Breed at the bottom of the screen. The Breeding Cave or Epic Breeding Island will start blinking to indicate that your dragon combination is playing. The sapphire Dragon play period lasts 30 hours, or 24 hours with an upgrade. When the breeding period is over, the sapphire dragon egg will be ready for incubation. Speed up the sapphire Dragon playback process by tapping the Breeding Cave or Epic Breeding Island and selecting Incubate. The cost to improve the breeding time from 30 hours to 24 hours is 24 gems. Tap Yes to accept the offer and speed up the playback process. 5 Register for DragonVale after the end of the play period. The sapphire Dragon egg will be ready for hatching in the Nursery. 6 Tap the Play Cave or Epic Play Island, then select Incubate. Sapphire Dragon's egg will now need another 30 hours to incubate in the nursery before hatching. 7 Register for DragonVale after 30 hours. The incubation period will now end. 8 Tap the nursery and locate the sapphire Dragon egg at the bottom of the screen. The Sapphire Dragon egg is bright sapphire-colored and features subtle iridescent purple effects. 9 Tap Hatch to hatch sapphire dragon egg. The Sapphire Dragon will now be hatched and is ready to be relocated to Gemstone Island. Ask a thank you question!
