Advertising - Scroll to page 2 advertising Thank you for your participation! Your assessment is very important to improve the work of artificial intelligence, which forms the content of this project to gain access to your Sierra Wireless AirCard 754S, you need your device's IP, username and password. You'll find such information in your router's Sierra Wireless AirCard 754S guide. To get to the router login page, you need to connect to the router. Sierra Wireless AirCard 754S Login Guide Open your web browser (such as Chrome, Firefox, Opera or any other browser) Click here to automatically detect the IP router. In a few seconds, our tool will show a link to the router's login page. Click on the link shown. You should see 2 text fields where you can enter the username and password. Check the bottom of the router. There you will find your login credentials. If not, look at your router's guide. Enter your username and password, click Enter, and now you have to see your router's control panel. If the above login credentials don't work, then try this method Try the different combinations of ID/password that are widely used by Sierra Wireless that you will find below. This list includes the most popular combinations of usernames and default passwords used by Sierra Wireless. Sometimes the username and password doesn't work that we mentioned at the top of this guide. Then you can try these username/password combinations below to get access to your wireless router. Username Password 1n/apassword2 (empty)admin3attadmin4sconsole12345admin6admin (empty)7 (empty)swiadmin8n/aswiadmin Default Login IPs for my Sierra Wireless router Have you tried a different routerA IPs but nothing worked? Have you tried following IPs? In the list below, we listed all the known router IPs for the manufacturer Sierra Wireless. Maybe this will work for you. Default router IP 1192.168.0.12192.168.1.1 Guide for Sierra Wireless AirCard 754S Guide To Fast Installation Home Guide / Sierra AirCard 754s (Netgear AC754s) Product Description We also recommend product Tags Sierra Wireless AirCard 754s 4G LTE Mobile Hotspot Sierra Wireless AirCard 754s Technical Specifications Model Room Sierra / Netgear 754s Operator Model ATT Raise 4G Mobile Hotspot SIM Lock Status unlocked, SIM card Free form type 4G LTE Hotspot/4G Mobile chipset hotspot/platform kvalcom category Категория 3 (3GPP Выпуск 8) Модем 4G/LTE Частотные полосы AirCard 754s : Band 4/17 (FDD 700/ AWS MHz) GPS 1575 МГц 3G UMTS/WCDMA/CDMA Bands 2G GPRS/GSM/EDGE EDGE/GPRS/GSM 850/900/1800/1900 МГц Скорость передачи данных 4G/LTE FDD ссылка Скорость вниз по течению: 100Mbit/s Upstream:50Mbit/s 4G/TD-LTE ссылка Скорость вниз по течению : N/A вверх по течению: N/A 3G 3G Connection speed downstream: 42Mbit/s Upstream:5.76Mbit/s Other LCD Screen Color Features, 1.77 inch 160 x 128 Pixel MIMO Support YES WiFi Support Yes Maximum Users Supported 5 Users SD Card Slot Yes USB Type Mini Port NO External Connector Connector 5 2 (Connector Type: TS-9) Battery capacity: 1800mAh Working time:N/A Dimensions 3.8 x 2.2 x 0.7mm Weight 150 g OS Supported Windows XP/Vista/7/8,Linux Ubuntu 9.04, Mac OS Supported Operators Alternative similar model Sierra 760s, Sierra AirCard 313u file or driver download firmware download Sierra / Netgear AirCard 754s Driver / Firmware download User Guide Sierra / Netgear AirCard 754s user manual specs Download Sierra / Netgear AirCard 754s Datasheet Additional Accessories Sierra / Netgear AirCard : Before proceeding with the steps below, install the snap adapter by following the instructions here Sierra Wireless AC754s Drivers download The Launch of the DC-Unlocker Customer Detection Device by selecting SierraWireless/NETGEAR from manufacturers to drop down the menu list, leave the Select Model as automatic detection (recommended), and then tap the magnifying glass button Wait until the program detects the Device Open Server tab, enter the user's name and password Click Check the login. (You can buy credits here www.dc-unlocker.com/buy). If the DC-Unlocker/Ygis/Rocker/Infinity key is connected, click only the Check Login Note button: if you can't log in or get a connection error to the server after connecting Sierra Wireless AC754s to your PC, check out these settings here Open Unlock Tab, click Unlock Wait until the device is unlocked After you see that the modem has been successfully unlocked, restart it. Now you can use it with any SIM card. NOTE: After resetting the device to the default plant, it can get relocked! In this case, use the same account to repeat the unlock, it will cost 0 credits.
