It is 1 player, 2 players and 3 player modes. Unfortunately, the game is not multiplayer, but you can still play with friends on the same computer. When you choose the control mode each person will be shown and each player is expected to click the shoot button so that the game can begin. The levels are generated randomly, so every time you play you will meet different levels. There are different types of updates that you can pick up. Like laser beam, sonar shot, homing rocket, mine, etc. choose them and try to eliminate your friends. But be careful when you shoot because bullets will bounce off the walls and the ricochet can kill you too. The most difficult mode is the 1 player mode. Do you think you can beat Laika? Fun to play Tank Challenge.
