Gather the necessary materials. Creates the objects. Deliver the goods to your contact. Detailed tutorial[edit] The following message will appear when you open the order: This client is looking for a particular concoction, and stipulates not asking why. Like we did. — Rolis Hlaalu. &lt;/Accept the contract.&gt; By completing an Alchemist's Scripture in the Highest Solvent Competition, you may receive a special Sealed Alchemy Scripture that asks you to create a specific concocte. This concoction will have three required elements, compared to normal alchemist writings that required only two. Check the following lists for the combination of reagents needed to do the concoction and create 16 potions or poisons. The Chemistry skill will greatly help with this by allowing you to make more potions and poisons of each attempt. Once you've created the items, take them to Rolis Hlaalu at Laden root, Wayrest, or Mournhold's delivery locations for your reward. Recipes[edit] This list below shows the combinations of ingredients needed to create potions or poisons for master scriptures. The UESP alchemy calculator can also be used to discover combinations of reagents. The master scriptures of potions[edit] are worth 000055 each. At the highest level of the Chemistry passive ability, you can complete a master potion script with four Lorkhan Tears and four samples of each Reagent required. Poison masters[edit] The master scriptures of poison are worth 000022 each. At the highest level of the Chemistry passive ability, you can complete a master potion script with a single Alkahest and a sample of each Reagent required. Notes[edit] Hlaalu Alchemical Goods in Mournhold is by far the fastest place create and leave multiple alchemy master orders, as the writing delivery point can be found relatively close to the store.
