If you're really what you eat, I'm absolutely, unequivocally, and undoubtedly a great bowl of popcorn. The savoury stuff (I'll pass on to the corn kettle, thank you very much) has been my go-to snack for as long as I can remember - so much so, in fact, that my obsession with it actually works a joke in my family. (Unfortunately.) For years, I've gotten bagged with microwave stuff, but when you eat as much popcorn as I do, you start to feel bad about all the oily calories you consume... and all the packaging you are sucking in the bin. So I started looking for a healthier, less wasteful way to get my fix, and as a bonafide popcorn connoisseur (treat me to this, okay?), I only found one solution that met my high standards: Scandinavian Uair Microwave Popcorn Popper.The concept of this genius popper is simple: Scoop a few tablespoons of popcorn kernel into a bowl top of it with a pair of (It's an air popper, FYI, so you don't need to add oil to the kernels.) Like other reusable poppers, this bad boy saves money and cuts waste: You can buy kernels of popcorn in bulk (much cheaper than a box of packaged things) and you don't wastefully pick up bags every time you indulge. But unlike some of the other air poppers I've seen, it works like a bowl to serve and mix into the toppings - and it's dishwasher-safe, for Perhaps my favorite thing about Nordic Ware microwaved popcorn popper, however, is its durability - it only costs \$16, but it will last longer movie nights than you'll be able to count. For proof, proof, Yom of my parents, who first introduced me to popper: they purchased them in early 2015, and after four years of regular use (they are where I got my popcorn addiction, after all), it will still be strong. If that's not enough to convince you that this popper is what your pantry is missing, check out its more than 2,800 five-star reviews on Amazon that praise the popper for being an easy monitor to get ready for and leaving behind no more than six un-popped cores. One particularly enthusiastic Amazon user even wrote: You're crazy if you eat popcorn any other way - and I couldn't agree more. Great idea, but although the bowl is just a great cover lasts a very short time. Cover the strain as soon as this happens, it no longer fits the bowl and allows the kernels to avoid the bowl becoming lodged under the microwave turntable. On the other hand, cleaning is easy, the quality of the popcorn is very good. I like the flexibility in that you can load popcorn with butter and seasoning or pop it with nothing added, a very good feature. This would be a 5 star production for sure, if only the cover were of good quality, unfortunately it is not. Worse, I couldn't find a replacement cover. Come on, Nordi Ware, go with the program. User Product Rating No. 100/100 Write a Review Recommend to a Friend: Yes Product quality: Well done frequency used: Several times a week Tenure Duration: 1 year or less Ability: Experienced bought my popper On November 26, 2018 online, and I love it. I've had 4 popcorn poppers by other companies in my life, and this popper is by far the cleanest, fastest and easiest to use. But, I have one problem: the edges that fit into the groove start to splay, and so the lid starts to slide off the top. Some people refer to this as a deformation. Maybe I had a faulty cover because I don't think it should happen so soon. I'd like to know where I can get another cover instead of buying a new popcorn popper. I've read some reviews here and I hope you'll come to me since my popper isn't that old. I'm sure it's a flawed issue of building a lid. User Product Rating No. 100/100 Leave Review Recommended friend: Yes Product quality: Exceptional Frequency Used: 1-2 times total duration of ownership: One month or less Ability: Professional I bought this microwave Popcorn Popper No. 60120 on Thursday March 21, 2019 from the Nordic Ware store in St. Louis Park, Minnesota. My wife and I made some amazing popcorn in our microwave. We eat a lot of popcorn. We like the way Scandinavian Ware Microwave Popcorn Popper No. 60120 appears without oil. We love dry popcorn. But we add some melted butter to our popcorn after it has been popped to perfection. You can add a little oil if you prefer too! Unfortunately, the life of the cover is short when used as a directional. It begins to discolor almost immediately, probably from the heat. The lower part gets very hot, especially at the bottom where if you you Not careful, you can get burned. The popping takes heat. The cover doesn't. We had it maybe a year and the cap was finally split. Many stores no longer sell this product. Is that because of this? Disappointment. Used a Scandinavian popcorn popper for years, my newest is just a few months and never a problem. Make a great popcorn with and without butter. When people ask, I always recommend this. My only disappointment is the 30% extra charge when shipped to Canada. Always was even when the US/Canada dollar was at the same level. But even though the extra costs are a reliable and consistent item for creating great popcorn. User Rating No 100/100 Write Review Recommended to Friend: Yes Product quality: Well Made Frequency Used: Dozens of Times Tenure: 2-5 Years Ability: Experienced It Corn popper is really the best thing since sliced bread. My only caution is if you're not sure about popping time, make sure you underestimate, not over the estimate, popping time. Microwave ovens are not homogeneous, as are popcorn. Underestimate and then go in 10 seconds in a step. Listen to these SSI! If you're cooking time, your beautiful popcorn popper will become stained. Still functional, but visually a little worse for wear. I liked my first so much that when it wears out to do in years of use, I bought another one. Love this popcorn popper! User Product Rating - 100/100 Write Review Recommended friend: Yes Product quality: Exceptional Frequency Used: Dozens of Times Tenure: 1 Year Or Less Ability: Experienced the best popcorn producer that makes the best popcorn. You didn't have a great popcorn tasting until you used this popcorn popper. Depending on the type of microwave oven you will have to determine the time it takes to complete the popping. I recommend following the instructions, but keep in mind and rule thumb, if you don't hear a single pop in 3 seconds, turn off the microwave because it's done. It may take several times to try before you get your own method down pat, but you'll have the best popcorn you've ever had. Also, instead of butter, melting a little coconut oil and drizzling it over popcorn is a healthy alternative, and absolutely delicious. Enjoy!
