## Charging station wow not showing

Updated: 4 months ago Article ID: 241764 Common Problems I couldn't see a charging station unable to charge my energy cells If you couldn't access the charging station on Bondo Page to charge your Empty Energy Cells, check the following: If you still have questions, please check with other players or visit our forums and fans. Customer Support can't help with game questions. Please log in to send feedback. Community General Discussion Ok. Im doesn't really understand the Mechagon Charging station that is in Bondo's courtyard. I have unlocked Displacer personal time but have nothing. I have all the mats but Energy cells. I had a lot of Empty Energy cells but when I spoke to NPC at Charging Station, I was told Charging Station went down. I read that I could pay in Spare Parts to use Charging Stations, but couldn't seem to figure out how to do it. Any assistance will be appreciated. 4 Like Another stupid time door – it's only available at random (NPC will ask spare parts to let you use it), and when it is, you can charge your cells. The other time it's unavailable and you can wait until it is. 3 Love The Only one until every few days. When going up, make sure you're there to help supply it with Spare Parts, otherwise you'll be charged each time you use it. 2 Like When you go to contribute to construction if you choose energy cells it basically automatically fills your empty cells so contribute to future reference. 2 Like Thanks for the update. I didn't do a search in the alternative universe but couldn't because I didn't have a shift and didn't have a mat to get it. Guess I could wait until the station again. UGH yes, you have like one chance (which I saw) to contribute to construction. Maybe it's a weekly cycle? And with just 3 charges, weekly will make sense. But, that would be a terrible preparation. Fees are once. After that it is free during that cycle. 1 Like Apart from parts, you need a single battery cell to actually power up to the charging station and you can use it freely for 2 hours before you need to do it again. 1 Like Bearrepair: I read that I can pay in Spare Parts to use Charging Stations, but can't seem to figure out how to do it. Any assistance will be appreciated. One of these ones, it may be on any moronic idea of this particular type of day. Because we all know how much Mechagon and Naz will matter when people hit 11 Love Today after a daily reset I saw events taking place at the Chargers, all these mobs rushed so I helped their AOE. Clicking on the charger demanded I pay for its use with the Charged Battery - which I was unclear (which is why I was there?) Then suddenly everything is plucked and there are no chargers now. This thing doesn't make sense. Garbage system, IMO. 15 Love today I lost charging station, I helped Earlier but now it's gone so I came here to let blizz know that 1 Like It is randomly available. I recommend that you charge every empty cell you have when it's up. If you appear after the charging station has been built, you can pay for 250 spare parts and one energy cell charged to gain access to the station for the next two hours. This works even if it will be blown and rebuilt. Alternatively, you can wait until it is in the rebuilding phase, then you can pay only 250 spare parts and get a two-hour buff that way. Reyxina: today the charging station is gone, I helped build earlier but now it goes so I came here to let the blizz know that the charging station isn't up to all the time. And when it is a project of the day, it will routinely be blown up by angry troggs. After a short time has passed, it will be available again, so continue checking throughout the day. 3 Likes So do you say I caught it at the end of his life? Because the same thing happens again. This is really annoying. 2 Like Charging stations is a construction job available today. I was charged like 50 empty cells. feelsgoodman: 5 Love to have so much! I think it stayed there all day I was at the charging station, which I built I saw people using it but I can't use it for some reason, no search. Npc next to it only has 2 bubbles: tell me about Charging Station. And you charge too much! This is exterio! Are there some prerequisite efforts that I have to do before? (I have 924 spare parts and 2 energy cells in my bag) 4 Likes Thank you, I can witness it's a full cycle so I understand what you mean. It's exactly as you say. Allegedly 85 of them today. Having this feeling will be a rubbish part quickly, the next page -- You can [[Project:Find or correct the stub|help expand it]] with "[[ editing it]]"&gt; From our interactive UK Map Wowpedia help you find your nearest electric vehicle charging point. Normal electric car charging point Costs to recharge your electric vehicle (EV) depending on the type of car you are driving, your car battery has and who you buy electricity from. With some public charging points, you pay for an annual or monthly subscription, while others bill you on the amount of electricity you use during charges - pay-as-you-go models. Some charging points are actually free - especially those installed in offices or places supermarket cars. Generally, it will be cheaper to recharge your electric vehicle than it would refill petrol or diesel cars. For more information, read our blog: How much it costs to charge electric cars. Generally, there are three types of public charging points: fast chargers, fast chargers and slow chargers. These are categorized by their power output, and therefore how fast they charge your electricity The higher the output, the sooner you should be able to charge your car. Power is measured in kilowatt (kW). Fast charger As the name may be, fast charging is the fastest way to charge an EV. The AC Rapid Charger has 43kW output and uses a Type 2 connector. The fast DC Charger has at least 50kW output and comes with a CCS charger, CHAdMo or Tesla Type 2. Tesla Superchargers are D.C. rapidly too, and have 120kW output. It should take between 30 and 80 minutes to charge your car to 80% on a quick charger. Fast charger Most public charges have fast charging capabilities. They tend to be between 7 and 22kW. Fast chargers have a Type 1 or Type 2 socket and it usually takes three to four hours to charge your car on one of them. The Charger slow charger has a three-pin plug. Just as many home chargers of many EV owners have been installed in their homes, it can take up to 10 hours to recharge the EV completely in one of these locations. The good news for EV drivers is that all the latest charging points in the UK network all have universal Type 2 sockets. This is also known as the Mennekes connector, named after a company that first proposed them in 2009. This means you should not have any problems connecting your EV to the point of charge. There are various suppliers responsible for growing and maintaining an EV charging network. Some of the biggest include Your Car Charges, e-carni, ecotricity, engenie, ESB, Genie Point, Instavolt, Pod Point, Polar (this is the largest and owned network by Chargemaster), London Resources, Shell Recharge and Tesla. A kilowatt hour (kWh) is an energy unit often used for electricity bills. Its value equivalent to the power in kilowatts multiplied at that time within hours, assuming energy was delivered at a constant rate. kWh prices are electric cars equivalent to the price per litre you see at a petrol station when you fill your car with gasoline or diesel. The price per kWh allows you to view and compare how much it costs to recharge your car's batteries at different car charging stations. To find out how much it costs to charge your electric car from empty to full, you take the unit price for electricity and breed with the capacity of your car's battery. Of course, you'll probably pay less than this figure because your car won't always be completely empty at the start of the charging process and you may not have time to wait until the battery is completely full at the end of time you have to charge it. Just as different petrol and diesel cars use a certain amount of fuel Because things like their weight and how they are driven, in the same vein, different electric cars use different amounts of electricity. The size of the electric car battery is assessed by how many kWh can be held. For example, the Tesla Model 3 Long Distance has a 75 kWh battery – it can store from 75 kWh of electricity. Electric cars come with official range figures, but reaching it depends on how you drive and external conditions (similar to fuel consumption in petrol or diesel cars). Unlike combustion engine cars, which have a rock-per-gallon (MPG) figure, the rate at which energy is stored electric cars is used because it is displayed as kWh/100mi – how many kWh is used for 100-mile journeys. So, if you start with a full battery and drive the Tesla Model 3 Long Distance efficiently as possible and reach a maximum range of 348 miles, it will use its electricity at a rate of 21.55kWh/100mi. However, just like with petrol and diesel cars, driving quickly or volatile will increase the amount of energy used and reduce the overall range of cars. Last Updated on Jan 12, 2020 at 00:17 p.m. by Sexixeny 22 comments Mechagon was an island off the coast of Drustvar. It was introduced in Patch 8.2 - The rise of Azshara and is one of two outer zones introduced. It has a small major search line for both the Horde and the Alliance and is very loosely related to the events of the Azshara patch revival. On the island, players will be given various activities to help Prince Erazmin of Mechagon, but will also have the opportunity to try mythical dungeons alone, Operation: Mechagon and the Robodrome arena. The rewards include some achievements, mountains, and lots of stuff from Junkyard Tinkering. There are also profession recipes available after agricultural reputation with the Mechagon tribe: Rustbolt Resistance. 1. Overview As mentioned above, there is a small effort line to be offered to both Horde and the Alliance. Having finished the initial search line for the tribe either, players will have the ability to explore and freely do any of the following activities: More searches - There are two introductory search lines to the island of Mechagon for both Horde and the Alliance. The introductory search line will differ from each other, but ultimately meet together on the island. There are two world quests that will emerge and various NPCs coming to the island to offer a range of daily searches. We will cover this in depth later. Operation: Mechagon is a 5-man dungeon launched alongside Azshara Permanent Palace after the release of Patch 8.2. This mega-dungeon has 8 bosses and ends with you destroying King Mechagon. You can find a guide for him here. Reputation - Rustbolt Resistance is one of 8.2 factions. With a position all the way to respect, you can buy recipes, mountains, ethypass for your Azeroth Heart, and blueprints to all players at Mechagon. It relies on collecting Spare Parts and Energy Cells around the island to make some goods: gear (up to item level 420), pets, mountains, toys, etc. others. Project – Across the island, you will find a variety of damaged machines that require repair. There are 2 active construction machines at any time. You can repair the machine yourself with the ingredients you have gathered on the island or you can recruit other players to help repair this machine. Rare Elites - There are a rare total of 37 elite for players to beat Mechagon. Some will only lay eggs during drill Rig construction projects, Flame Turrets, or reclamation construction projects. Mountains and New Equipment - In the Rise of Azshara, Players can get new mountains from Mechagon and Nazjatar. For Mechagon, there are mountains that can be obtained from the search and from inside Operation: Mechagon. Achievements — There are a dozen achievements that players can lock in at Mechagon. Finish meta-achievement Mecha-Done will unlock a unique mountain from Mechagon, while completing Junkyard Tinkmaster will reward you with the Junkyard title. 2. Unlock Mechagon After players have unlocked their tribal new allies in Nazjatar, they will be able to take the efforts of Mechagon bread (Fame Waiting for Gnome One in Mezzamere and Mechagon Rumors in Newhome). Players can also take the first effort of the Mechagon Legend/Legend of Mechagon at Boralus Harbor/Dazar'alor from Tinkmaster Overspark/Gazlowe. 2.1. Horde Questline Once you have unlocked Mechagon, you need to gain the trust of Prince Erazmin and work your way with the Rustbolt Resistance faction. The search lines for each area will be the same for both The Horde and the Alliance from here onwards. 3. Spare Parts and Energy Cells One of the first things you will notice in Mechagon is that you continue to step up Spare Parts and sometimes even Empty Energy Cells (and rarer Energy Cells). These items are used exclusively for Junkyard Tinkering, the mechagon-exclusive profession. Please refer to our Junkyard Tinkering section for more information. Only Energy Cells are used in Tinkering Junkyard, but they are quite rare compared to empty energy cells. Fortunately, Empty Energy Cells can be recharged using Charging Stations to become Energy Cells. Please refer to our Charging Stations section for more information. 4. Further Questing in Mechagon When you complete both search lines, you can start freely exploring the entire island. There are 11 other locations on the island that you can find and will have a daily search or search line for you to be complete. They are as follows (with the search line listed). As you can see, not all of these locations have search lines, but they almost all have daily searches. We'll now see another non-daily search before shifting daily search in the next section. 4.1. The Yard Bondo Charging Station listed above leads to unlocking the Charging Station. Charging. Charging stations, you can recharge your Empty Energy Cells to make them Energy Cells. 4.2. 4.2.1. Paint Vial Quests: There are a total of 7 Paint Vial quests you can take from the rare elite that foams at Mechagon. Please refer to our rare elite section for more information on finding/calling the elite. Information about which vial fall mob is from PTR comments in Wowhead. Collect all vials rewarding you with Available achievements in Eight Colors, which counts towards Mecha-Done meta-achievement achievements (see achievement section for more information). 4.2.2. Quests Recycler Kerchun's Daily Store Project will have a non-recurring daily search for you to finish. Each search is part of the series that ends with you acquiring the Mechaspider Scrapfolded mountain. The ready time will reach within a few weeks. Completing this line of search rewards you by making Mountain achievements, which are calculated towards meta-achievement Mecha-Done (see achievement section for more information). 4.3. Rare Elite Quests Some searches are directly linked to Rare Elites and the achievements of the Break In Pistons. In Shallow Teeth (small islands between Mechagon and Western Spray), there is a small search line leading to the murder of Deepwater Maw, which is needed to Rest In Pistons. To start the search line, you have to talk to Danielle Anglers, located on mechagon's west coast. The search line-up consists of the following efforts: Updating Until; Build Larger Fish Traps; Let's Fish!. During the search line, you'll get Blueprint: Hundred-Fathom Lure and after killing Deepwater Maw, you'll get a Blueprint: Kanned Minnows. For more information on blueprints, please refer to the Tinkering Junkyard section below. 4.4. World Search 5. The Daily Search Daily Search at Mechagon increases your reputation with Rustbolt Resistance, but many of them are also calculated for the achievement of External Influencers. To allow these visitors to a daily search, you need to allow the Rustbolt Inn, by bringing blueprint: Rustbolt Kegmaster to Pascal-KiNG in Junkyard, as we describe in the Junkyard Tinkering section. Bondo's Yard (Charging Station) Chromie Dread Captain Demeza Pirates, Sea Monster, Robot (count towards External Influencers) League Explorer Jopetto Joybuzz Toys Like Us (count towards External Influence) Azeroth Mini: Starter Pack Junkwatt Depot Moxie Lockspinner One Gnome Trash (count towards External Influencers) Mylene Oglethorpe Obnoticus My Chickens (count towards External Influencers) Razak Ironsides Rustbolt Resistance Scrapbone Den Steelsage Sao The Fleeting Forest The Outflow Ravenous Rescue Aim High (count towards Outside) Gorge Wild Bots To unlock this search, you have to talk to Pedram Mechanrax, which is available at the top of the Mountain. Tooth Teeth Tortillans Western Spray PTR Dataminied Quests (to be updated after live test) 5.1. Daily Fishing Search All daily fishing efforts provide skill points in Kul Tiran fishing as well as reputation with Rustbolt Resistance. 5.2. Construction Project In the map above, you can see that there are 5 types of projects in Mechagon: Charging Station, Reclamation Platform, Fire Turret, Drill Rig, and Rustbolt Shield. Every day, you will be able to complete two different construction projects, each of different types. These projects repeat again throughout the day for other players to do so, but you can only complete them once a day. The map above marks the possible location of thrust for each type of project. As you can see in the rare elite section, some Elite Rare people are just veiled when the project is given. So you have to pay attention to that, if you are hunting for a certain elite. To find out which projects are available on a given day, you need to talk to Warren Gearheart on Rustbolt. Then, go to their respective locations to start a project, or help complete a team that has started. After the project starts, you can contribute to it by donating the required materials (Spare Parts and Energy Cells in the screenshot above). After the project starts, the mobs will begin laying eggs and try to destroy it. You play a role in continuing to contribute and defend the project. To help you with construction, there are 2 items from Junkyard Tinkering that can help: Emergency Repair Kit and Emergency Powerpack. There are two achievements associated with the construction project: Junkyard Machinist requires that you complete 100 projects (so it will take at least 50 days); The Head of Mechagon Funding requires you to contribute to 1,000 projects (you can only complete 2 projects a day, but you can contribute to as much as you like). 6. Rare Elite and their Location There are 37 Rare Elite in Mechagon, 36 counts towards the achievements of the Piston Deep Break, which is part of meta-achievement Mecha-Done (see the achievement section for more information) and Scrapclaw, which is not part of the achievement, for some reason. 1. Scrap King 2. Killsw This Rare Elite has a chance to drop mechagonian Sawblades. 3. Jawbreaker 4. Arachnoid Harvester 5. Rustfeather 6. Rumberlocks 7. Foul Manifestation Watch this video to learn how to call this Rare Elite. 8. Crazy Trogg 9. Bonepicker 10. Mechanatula 11. Vaultbolt shield 12. Mr. Fixth's 13. Steel singer Freza 14. Seasplit 15. Inspector Gear Cogstar 16. Boilburn 17. KX-T57 18 enforcement. OBig Tusk 19. Gemicide This Elite can only be found during the DR-J099 Drill Rig construction project. The mob is associated with a Mechagonian Nullifier, see below 20. Earthbreaker Guileco 21. T-mechaline 22. Gorged Gear-Cruncher This Rare Elite can only be found during the construction of the DR-CC61 DR-CC61 Drill Rig He can be located underground and is a very rare spawning. 23. Kleptoboss 24. Boggas Skullbash 25. Spider Motobrain 26. Rusty-Son 27. Mr. T-Rogg is 28. Paol Pondwader 29. Fungarian Furor 30. Deep Sea Maw 31. This Rare Beastbolt Elite gave birth to NPC Neutral at Bondo's Yard. To activate it, you need to use the Beastbot Powerpack, which can be made with Junkyard Tinkering, worth 1 S.P.A.R.E. Crate and 1 Power Cell. The order of action for this item can be found lying on the floor at Bondo's Yard, a few feet away from an NPC named Knuckles. The Damaged Beastbot has a chance to take down Robogrip's missing pet. 32. Fuse 33. Mechagonian Nullifier players need to get too much and use Remote Lite Shortcuts to be able to tease frenzied elements in Junkwatt Depot. Players can get a punchcard as a drop from the King of The Fuse. 34. Leachbeast oxide Once it rains, a small oxidized slime is swallowed at junkwatt depot, players need to kill slimy so that mob spawning is rare. 35. OOX-Avenger/IMG This rarely applies will only be available when Oglethorpe Obnoticus is in town. Players need to find and kill OOX-Fleetfoot/IMG to make rare chickens. 36. Doppel Gang 37. Sparkquene P'Emp Elii will rarely be available only when Razak Ironsides is in Rustbolt as a visitor. 7. Treasure Chests A new type of treasure chest can be found throughout Mechagon. The Mechanical Chest will be located throughout the Mechagon and will contain items such as Changing Tools, Mini Azeroth Numbers, and, very rarely, a vial of paint that can be used to paint your Mechano-Cat. The player who wins the PvP death fight in the Bloody Grotto will win the Fight Club Treasure Chest. These chests may contain annoy-o-tron gangs or Protocol Transfer Devices. Finally, players will be able to earn Bundles of Recyclable Parts instead of completing the Junkwatt Depot's repetitive daily search. These treasures may contain items, such as a variety of useful Mechagonian items, and unique low-drop items, such as Paint Vial: Copper Trim. 8. Junkyard Tinkering Pascal-KiNG, in Rusbolt, is a robot that will help you with your new profession: Junkyard Tinkering. In order for Pascal to be able to build things, you need to provide them with an action order. He will then study it and, once you have the necessary ingredients, he will build it for you. This means that everyone can learn this new profession. The search online introduction is very short and as follows. Using Junkyard Tinkering, you can create some useful items: mountain; beloved pets; toys of all kinds; rings and trinkets Levels 395, 410, and 420); Rustbolt Kegerator, which you need to make a craft to unlock the Rustbolt Inn and allow visitors to come to the island; they will give you the daily search you need for External Influencers. and more. 8.1 Reagan Junkyard Tinkering Bases For Junkyard Tinkering's recipe is a Change Tool, which can be found throughout Mechagon. Other reagents are as follows: 8.2. Tinkering Junkyard Receipts and Items In this part, you will find all the receipts and items of Tinkering Junkyard. We also explain where to get blueprints from. If you unlock all these items, you will be rewarded with the achievements of Arkitek Junkyard. Blueprint and Item Source Materials and Scrapmaster's Blowtorch 2x S.P.A.R.E. Crate 3x Energy Cell Players will be offered this One to Me search after reaching homage to the Rustbolt Hurdle. Upon completion of the search, the Player will be given an automatic action frame. S.P.A.R.E. Crate 250x Spare Parts Players will collect Change Tools in their inventory. This item will only be compiled to 250. Once it has reached that number, they can talk to Pascal-KiNG to change it to S.P.A.R.E. Crate. Rustbolt Kegerator Blueprint: Rustbolt Kegerator 4x S.P.A.R.E. Crate 4x Energy Cell 8x Chain Ignitercoil Blueprint of this item falls from Seasplit (please refer to our Rare Elite section for more information on this NPC). Once you have created the Rustbolt Kegerator, it will start a short search and when completed, the Rustbolt Inn will be active, allowing you to start receiving daily searches that mistaking the achievements of Outside Influence (see the daily search for more information). This 4x Galvanic Oscillator 3x Energy Cell 1x S.P.A.R.E. Crate Blueprint has a very small chance of falling from Paol Pondwader and Jawbreaker. You can get more information about both of these in our Rare Elite. The item itself creates a Level Item 395 Ring or Trinket suitable for your class and specifications. Advanced Odyssey Blueprint: Advanced Traveler Augment 5x Galvanic Oscillator 5x Energy Cell 1x S.P.A.R.E. Crate Action Frame for this item is sold by Stolen Royal Vendorbot, Quartermaster for Rustbolt Hurdles, once you have achieved a respected reputation. The item itself creates a Level Item 410 Ring or Trinket suitable for your class and specifications. 7x Galvanic Oscillator 10x Energy Cell 2x S.P.A.R.E. Action Frame Crate for this item is sold by Stolen Royal Vendorbot, Quartermaster for Rustbolt Hurdles, once you have achieved a respected reputation the item itself creates a 420 Ring or Trinket Level Item suitable for your class and specifications. Blue Spraybot Blue Blue Blue: Blue Spraybot 200x Blueprint Change Tool for this item may fall from Crazyed Trogg, Rare Elite (see our rare elite section for more information on how to find and defeat it. The item itself gives you 100 War Resources. Blueprint Displacer Personal Time: Displacer Personal Time 2x S.P.A.R.E. Crate 2x Energy Cell Blueprint for this item could fall from Chromie's daily search. This item allows you to travel to future alternatives to Mechagon (Future Mechagon). It's necessary to face the Rarely Rusty Prince Elite (see (see elite for more information). Utilities Mechanoclaw Blueprint: Utiliti Mechanoclaw 5x S.P.A.R.E. Crate 3x Energy Cell 2x Chain Ignitercoil Unknown Source - This item is a beloved pet. Microbot XD Blueprint: Microbot XD 2x S.P.A.R.E. Crate 3x Energy Cell 2x Chain Ignitercoil Source Unknown - This item is a beloved pet. Perfect Time Difference Blueprint: Perfect 2x Different Period S.P.A.R.E. Crate 5x Energy Cell 2x Galvanic Oscillator Blueprint for this item falls from King Mechagon in Operation: Mechagon. This item is a rank of 2 Essence Perfection Insights (see our Intipati guide for more information). Anti-Graviti Pek Blueprint: Anti-Graviti Pek 200x Tool Replace Tool Replace 2x Energy Cell Blueprint has a chance to fall from the Elite Rustfeather Rarely. Please bush our rare elite search for more information. This item allows you to fly in Mechagon after jumping twice. Rustbolt Pocket Turret Blueprint: Rustbolt Pocket Turret 150x This Blueprint change tool has the opportunity to descend from the KX-T57 Rare Elite Power Amplifier. Please bush our rare elite search for more information. This item throws a fire turret over the ground that will defend the area for 2 minutes. It can only be used in Zandalar and Kul Tiras and has 1 minute of cooldown. Annoy-o-Tron Gang Blueprint: Annoy-o-Tron This 100x Blueprint Change Tool Gang Cell has a chance to fall off the chest of daily PvP in the Bloody Grotto. This item releases annoying robots in the region to distract and expose all enemies for 30 moments. It can only be used in Zandalar and Kul Tiras and has 1 minute of cooldown. Difficult Black Market Radio Blueprint: Difficult Black Market Radio 10x Tool Replace Tool Replace 1x Energy Cell The action frame for this item is automatically provided when the search is complete Other Interests. This item allows you to access The Black Market Auction House remotely. 1x S.P.A.R.E. Crate 3x Galvanic Oscillator 1x Energy Cell The action frame for this item can be obtained from the Original Kitar Purpose. Ultrasafe Carrier: Mechagon Blueprint: Ultrasafe Transporter: Mechagon 1x S.P.A.R.E. Crate 8x Energy Cell 4x Chain Ignitercoil The action frame for this item may fall from Cogstar Gear Checker (see our rare elite section for more information). This item allows you to teleport to Rustbolt on Mechagon. 9. Trinket Search Punch Card upgraded from Christy Punchcog in Rustbolt gives you trinket Kad Punch, Pocket Size Calculation Device. At PTR, he will only give you items as a search reward, but there is Tinkering Junkyard's proficiency that in the game files to create this item and costs 8 S.P.A.R.E. Crates and 4 Energy Cells. This trinity has no but otherwise it can be fully customized trough 3 Punchcard slots: Blue, Red, and Yellow. In each slot, you can insert a commensurate Punchcard, which will give you statistics, usage effects, or passive effects. Passive. Can be bought from different Quartermasters, falling from rare elite, or from Operation: Mechagon Myth dungeon. The system is intended as a fun capture mechanism (at least in terms of item level). Identification searches for Pocket-Sized Calculation Devices are as follows: 9.1. Blue Punchcard Blue Punchcards do not increase healing on damage, but has interesting and useful effects. Here is a list of all the Blue Punchcards we dataminied (and their effects), but the sources are mostly unknown. 9.2. Punchcard Red Punchcard Red has a cured effect or damage. Here is a list of all the Red Punchcards we dataminied (and their effects), but the sources are mostly unknown. 9.3 Yellow Punchcard Yellow Punchcard is a statistical stick with 2 secondary statistics. Here is a list of all the Yellow Punchcards we dataminied (and their statistics), but the sources are mostly unknown. Omnipurpose Logical Board Efficient - +284 Versatile, +84 Haste. This punchcard is a reward from First One's Free. Fine Logic Board Force - +296 Critical Strike, +98 Domination. Forcefully Adaptable Logic Board - +296 Critical Strike, +98 Versatility. Forcefully Efficient Logic Board - +296 critical strike, +98 Haste. Optimized Efficient Logic Board — +296 Mastery, +98 Haste. Effective Logic Board Optimized — +296 Mastery, +98 Critical Strike. Customizable Logic Board optimized — +296 Mastery, +98 Versatility. Performant Adaptable Logic Board - +296 Haste, +98 Versatility. Performant Fine Logic Board - +296 Haste, +98 Mastery. Effective Logic Board Performant — +296 Haste, +98 critical strike. Omnipurpose Fine Logic Board - +296 Versatility, +98 Domination. Omnipurpose Effective Logic Board - +296 Versatility, +98 Critical Strike. Omnipurpose Logic Board - +311 Versatility, +93 Random additional statistics. This punchcard can be obtained from Operations: Mechagon. Optimized Logic Board — +311 Mastery, +93 Random additional statistics. This punchcard can be obtained from Operations: Mechagon. Logic Board Of Perpetrators — +311 Haste, +93 Random additional statistics. This punchcard can be obtained from Operations: Mechagon. Logic Board Force — +311 Critical Strike, +93 Random additional statistics. This punchcard can be obtained from Operations: Mechagon. 10. Operation: Operation Mechagon: Mechagon opens on July 9, and battle for Azeroth's first mega-dungeon. This dungeon is a mechagome racing underground fortress led by King Mechagon. Players will experience a total of 8 bosses in this Mythical dungeon alone, but will have a myth + and a Heroic version added later. Players will be able to lose items that are mostly set around item level 415 and can be rented or titanforged. Along with Players can get punch cards, pets, mountains, profession recipes, and Azeroth Essence Liver. We will have for this dungeon if released. 11. Mechagon Mountain players can get 8 new mountains while Mechagon. Although most are obtained rather than killing elite mobs, one mountain is made by you otherwise, the other is the reward of a long search line, and the latter is the reward of mechagon mecha-done meta-achievements. 11.1. X-995 Mechanoocat Mechanoocat Mechanoocat taught by Mechanoocat Laser Pointer, made using Junkyard Tinkering. The order can be purchased from Cork Stuttgartard at the south entrance of Bondo's Yard for 500. The materials needed to make the mountain are as follows. What makes this mountain so special is that it is also adapted in terms of color. There are a number of 7 colors that exist and the 8th as a reward. Collecting all the paint vials will reward players with the achievements available in Eight Colors and is marked as progression to your Mecha-Done achievement. For more information on this search, please refer to our mountain-related search. Please refer to our Pratonton X-995 Mechanoocat to see what the mountain looks like, as well as all the original colors. 11.2. Mechaspider Scrapfolded Mechaspider Scrapfolded is a reward for completing the search line that ends with Drive It Away Today. Completing this quest gives you the mountain and the following achievement: Making a Mountain. Please refer to our Pratonton Mechaspider to see what the mountain looks like, as well as some animations. 11.3. Rusty Mechanocrawler The Rusty Mechanocrawler is a recolor of scrapfolded mechspider. You can get this mountain from the elite Arachnoid Reaper which is rare in the Mechagon zone. See our Rare Elites for more information. Please refer to our Rusty Mechanocrawler pratonton to see what the mountain looks like. 11.4. This Mountain Drifter Junkheap was taught by Rusted Keys to Drifter Junkheap, which fell from the rare rustfeather elite mob at Mechagon (see our Rare Elite for more

information). It is a rustier variant of the Keys to the Model W (the mountain of mecha-done meta-achievements). Please refer to our Junkheap Drifter pratonton to see what the mountain looks like. 11.5. Air Unit R-21/X Air Unit R-21/X falls from in Operation: Mechagon, from the final boss of King Mechagon. This mountain has a uniquely special mountain, which has a cannon that pops out of its mouth. Please refer to our Air Unit R-21/X preview to see what the mountain looks like, as well as some animations. 11.6. Mechagon Peacekeeper Mechagon Peacekeeper is another Mechaspider Recolor Mountain Scrapforged. Players can find this mountain as a drop from the boss of the HK-8 Air Suppression Unit, found in Operation: Mechagon dungeon. Please refer to Pratonton Mechagon Peacekeeper to see what the mountain looks like, as well as some animations. 11.7. Rustbolt Resistors can be purchased from Stolen Royal Vendorbot Vendorbot to 524,288 , having achieved a reputation of being eliminated with the Rustbolt Hurdle. Please refer to our Rustbolt Resistor pratonton to see what the mountain looks like, as well as some animations. 11.8. The Mount W Mechacycle model is taught by The Key to the Model W, which is a reward for completing the meta-achievement of Mechagon: Mecha-Done. Please refer to our Pratonton Model Mechacycle W to see what the mountain looks like, as well as some animations. 12. Toys 12.1. Azeorth Mini: Mechagon Set With Patch 8.2, players will be introduced to a new line of toy game collections. Jepetto Joybuzz will have a daily venture, Toys Like Us, which will provide players with a Mechagon starter themed with a Mini Azeroth pek. Players will be able to collect and put each one on top of the kekacang. This mini is also known to be in the company of others while in the row. Like other Mechagon visitors, Jepetto Joybuzz won't always be in Mechagon, but when players get the Mini Azeroth: Mechagon Collection from the starter spec, they'll be able to start collecting VIP mini numbers. Players will be able to obtain these MINI VIP numbers from the Mechanical Chest around Mechagon, rarely inhabiting Mechagon, and from Operation: Mechagon dungeon boss. At the moment, there are only 16 of the minis in the game, but achieving Most Minis Wins requires you to have only 14. 13. Battle of the Pets 13.1. Wild Pets Duskytooth Snooter is a rare spawning around the mechagon forest area. Fleeting Frog is an ordinary spawning that can be found around water corpses in Mechagon. Damaged microbots are common seeds that can be found around industrial areas. Motorized croaker is an ordinary seed that can be found south of Rustbolt in the waters of industrial areas. Rustyroot Snooter is an ordinary seed found in the forest area of Mechagon. Specimen 97 is a unique spawn found in the Scrapbone Den mechagon area. Experimental Roach is a remarkable spawning that can be located near Rustbolt and the industrial departments of Mechagon and share spawning sites with Junkheap Roach. Junkheap Roach is an ordinary spawn that can be located near Rustbolt and industrialized mechagon and share egg laying locations with Experimental Roach. Mechagon Marmot is an ordinary seed that can be located throughout the Mechagon but especially in forest areas. Rustbolt Clucker is an ordinary seed that can be located in the Rustbolt. Yellow Junkhopper is an ordinary seed that can be found near water corpses around Mechagon and shares spawning sites with fleeting frogs. 13.2. Pet Catwalks and Rewards 13.3. Operation Mechagon Pets Alloyed Alleyrat obtained from Mechagon Underground. Players don't need to dungeon completely to access the Dungeon section. Clanking Scrapsorter obtained from Mechagon Underground. Players don't need to explain dungeon dungeons to access the dungeon subway. Hopper copper is obtained from Mechagon Underground. Players don't have to clear the dungeon completely to access the dungeon's Bottom Side. H4ND-EE obtained from Mechagon Underground. Players do not need to completely clear the dungeon to access the bottom of the Basement. 8D Microbot derived from the BosS HK-8 Air Suppression unit. Golden Snorf is sourced from dungeon's final boss, King Mechagon. 14. Mechagon Meta-achievement Mecha-Done achievement consists of 10 achievements that you need to complete to unlock access to the W Mechacycle Model (Keys to the Model W) mountain. Because one of these achievements takes at least 50 days to complete, you can't get your Mechacycle W Model before your 50th day at Mechagon. There is another meta baker, Junkyard Tinkmaster, which rewards you with the Junkyard title. It consists of the following achievements. There is also a self-achievement, Diversed Investments, which you will no doubt get while completing Junkyard Machinist. These achievements can grow further with Diversified Investments, where players need to complete each construction project and reach 100% on the progress bar. 15. PvP players will be able to perform PvP across the island of Mechagon. Players will be able to find the open world PvP arena called Bloody Grotto, currently led by Bookie Longshot. Players will be able to find this arena behind the waterfall at Fleeting Forest and only open when Grumbol Grimhammer is one of the daily visitors at Rustbolt. Players will be given the opportunity to fight in the free-for-all deathmatch arena, where they will fight for a treasure chest that ranges every 30 minutes. When players shoot the chest, it will have lockups, so they are only able to get what is inside once a day, every character. Players can get Mechagon material from the chest, such as Energy Cells, or other useful items that Blueprints can create. Another upcoming PvP form to Mechagon is Robodrome. This will be a new example arena aimed at levels of 90 to 120 characters. Players will find that the arena is in-form circulars, designed in Mechagon's engineering style. Players can find 3 platforms in the middle and each will allow you to get it from behind, unlike the previous arena. This rampage will work more like a pole, so you can use it to break the line of sight. 16. Changelog 12 Jan. 2020: Update guide to 8.3 patch changes: reduced essence requirements. 03 Jul. 2019: Updated Daily Search section. June 29. 2019: Blueprints and Charging Station Latest June 28. 2019: Rare elite updated, achievements, and fighting pets. Add PvP, Khazanah Chest, and dungeon information. June 23, 2019: Guide added.
