The winner of the National Book Award for Fiction Saturday is a theater comic creating epic proportions, and Mickey Sabbath is his giant hero. At sixty-four Saturdays, it is still defiantly antagonistic and extremely libidinous; sex is an obsession and principle, an instrument of eternal wrong swearing in its daily existence. But after the death of his longtime mistress - an erotic free spirit, whose great taste for unacceptable matches his own - Saturday goes on a turbulent journey into his past. Deprived and grieving, tormented by the ghosts of those who loved and hated him, he comes up with a series of farcical disasters that take him to the brink of madness and extinction.
