The coronavirus pandemic has taken the world by storm. With the virus wreaking havoc all over the world, people need to stay at home. None of us dare to go out in fear for our lives. This difficulty really makes us remember those times when we wanted to click unlimited photos in the open. However, eminscing photos has also become boring now. After all, how long can you look at the same photos over and over again. Diversity gives a taste of life. It is not surprising that many of us devote our time and patience in editing our photos. Editing can turn even a bad picture into a picture that brings so much emotion. The main problem with editing apps these days is that they are paid. Most apps have a free version, however, they all vary basic, without professional features. If you want to go pro, you have to pay. Well, we have a workaround for you! Today we are discussing about Polarr Photo Editor, perhaps the best editing software out there. We're also looking at the Mod APK version, which offers you all professional features for free! Polar Photo Editor: Polarr Review is an AI company headquartered in San Jose, California Founded in August 2014, by the company's chief executives Boroui Wang and Derek Yang. Polarr received initial funding from StartX and Mar Ventures. In five years, Polarr has built a reputation. The company offers two main products: Polarr Photo Editor and Polarr Album Plus. Polarr is available on all major platforms. The editor of Polar Photo was introduced in February 2015. The first installment was an online photo editor. The product was capable of editing and photo-buying RAW images. Four months later, Polarr came out with a mobile version of the editor. Initially, Polarr launched the app on iOS, and a month later released the same for Android. In 2015, Polarr also released its desktop apps for Windows and MacOS. The app was so popular that it won the Best of the App Store award in 2015 and 2016. Polar Photo Editor: Polarr features have really revolutionized the photo editing industry. The app offers a variety of interesting features, some of which other companies can't compete with. You can expand the photos and also export a certain batch. By creating your own filters, you can share them with your friends! Many camouflage and adjustment tools are available as well. The creators allow you to superimpose more than 10 photos with their different mixing modes. In addition, there are still many local adjustment features such as depth mask, brush mask, color mask and radial mask to name a few. About version also two different workspaces, Express and Pro. You can also access the app from all your devices with their excellent synchronization feature! Polar Photo Editor: MOD APK Download Polar Photo Photos The Mod APK file is only available for Android devices. For those of you who don't know, APK is a short form of Android Application Package.
