Disney is a very big media property these days. They own ABC, ESPN, Marvel, Lucasfilm, and Fox soon. In other words, there are a lot of ways to interact with Disney's. But if you're looking for a Disney app, you'll want a more classic Disney character or experience. We can definitely help it. Disney, again, is massive. They have movies, TV shows and music across many genres. We can help you find what you are looking for. Here is the best Disney app for Android.

Disney+DisneyNowFANDOHearthRadio Family Internet TV (link to Hulu) My Disney Experience Lady's Official Disney App YouTubePrice: Free Trial / Monthly . It contains a bunch of Disney shows and movies and original content such as Disney-owned properties (such as Simpsons) and MandaLoreans. It has been a great success for Disney so far and is an obvious choice for such a list. In addition, Hulu, Disney+, ESPN+ can be available for as little as 12.99 dollars, and now streaming is honestly the best deal. This is easily the best Disney app. Disney Now Price: TV Subscriber Login is Free Disney's current streaming service at Disney Now. You can log in to the service using your existing TV cable provider information and access a bunch of Disney TV content. It includes children's shows, cartoons and live action ones, classic and new Disney characters, and even Radio Disney. Disney+ is an excellent streaming service, but you can get more day-to-day Disney content than Disney+, but if you still have it integrated with a cable TV provider. Fandom by WikiaPrice: Free addsFandom by Wikia is a community of enthusiasts who create these little wiki pages for various media properties. It used to be a collection of apps for a variety of fandom, but now it's a single app that can use all topics. This app generally provides information about characters, movies, TV shows, and even some games. Basically it's a neat way to learn some trivia about Disney movies, shows and characters. Of course, it's a bit of a niche product. Trivia Buffs should definitely try this.iHeartRadio Family Price: Free Per Month / But for Disney's, we recommend the iHeartRadio family. It has 80 stations of family-facing music from a bunch of popular children's shows and movies. Of course, it contains a lot of Disney content. You can go to a station dedicated to Disney Princess songs or beat standard Radio Disney for a great mix of music from Disney. Of course, the full version has all of these stations, so current fans of iHeartRadio simply need to press the search button to find these stations. Premium version, add a bunch of unlimited skips and other featuresWell. Internet TV (Sling TV, Hulu, DirecTV Now, etc.) Price: Free/Change It's easier (and cheaper) to watch TV than ever before. TV services such as Hulu, Sling TV, YouTube TV, PlayStation Vue and DirecTV now have a bunch of excellent child-friendly content. As a result, they also have access to disney channels along with a bunch of backlog Disney content. For example, on Hulu, if you subscribe to a live TV service, you'll get a Disney Channel, but you'll also have access to movies like Pocahontas. The amount of Disney content per streaming service is different, but at least you can get a real channel in all of them. Honestly, as long as you subscribe to a live TV service, you'll get an on-demand title, so this is probably better than a cable for Disney's. In addition, Disney has Disney+, ESPN+, Hulu subscription bundles. Movies Everywhere Price: Free/Movie Price is the best app for movies anywhere on Google Play. This is not your own standalone streaming service. This is actually a collection of other movie streaming services. Sign in with iTunes, Amazon, Vdu, or Google Play. All movies purchased with these services are now available in one place. This service boasts more than 7,500 movies and, of course, basically includes tons of Disney movies along with all Marvel and Star Wars movies. Disney is likely to have all of those movies on Disney+ when it comes out. But until then, it would be a great place to actually buy and watch Disney movies. The app is occasionally buggy, but otherwise it is very good. It also comes with Chromecast support. My Disney Experience/Disneyland Price: Free Disneyland and Disney World are two of the most popular vacation spots in the world. They also have the official app. The My Disney Experience app is primarily focused on Disney World. You can use it to plan your vacation as an interactive map of the park, and you can even buy your tickets and goods there. The Disneyland app is pretty much the same way. The app displays information such as estimated wait times, browser restaurant menus, and interactions with park maps. There are apps for all Disney parks such as Paris, Hong Kong and Shanghai. People heading to Disney World or Disneyland should definitely have these apps at hand. RedditPrice: Free / Monthly .399 / Annual .29.99Reddit is suitable for many fan bases, and Disney fans are no exception. This site has dozens of subdits for Marvel Properties, Star Wars movies and of course classic Disney properties. You can talk to other people who like what you like and post what you care about. The Reddit app may be difficult to adapt to at first if you've never used Reddit before, but you can control everything in moderation. Any <a0>T:SystemThis is a great way to read news about Star Wars, Marvel, or other Disney properties and discuss them with other fans. Premium subscription removes ads and gives you some additional features as well. Official Disney App Price: Free (usually) We said over and over again that Disney is a huge company. After all, there are a variety of official Disney apps for most of these properties. Some examples include the official Star Wars app, the official Marvel app, the ESPN app, ABC's official app, and the list continues to extend. These official apps are one of the best ways to interact with Disney's large media company list. For example, you can watch ABC programming in the ABC app or read the latest Star Wars news in the Star Wars app. You can even read old Marvel cartoons in the Marvel app. It really depends on the type of content each property makes, but it's still Disney.YouTubePrice: Free /Monthly .12.99YouTube is an excellent, obvious, choice for a great Disney app. Basically, you can find Disney songs made there along with tons of clips and memes from various movies and TV shows. It's also a place to watch trailers for up-and-coming movies and shows, reviews of various toys and games, and basically anything else you can think of. Disney has an official VEVO channel with more than 11 million subscribers. But again, you probably already knew all of this, so this part of the list is really some confirmation bias. Yes, YouTube is one of the best apps for Disney fans. If you want, you can pay a monthly fee of USD 12.99 to remove ads or download videos for offline use. I'm talking about the application as well as music files, documents, PDFs and even new wallpapers. It's important to know where everything is and get rid of old memes.
