After unpacking three layers of packaging, having found the magnifying glass and tops, we can try to open the windows and capsule with the doll itself. We have seen, with the help of magnifying glass, that the images (codes) on the locks should be contrary, for example, to fire ice, sun cloud or, conversely, close to meaning and theme. On the capsule there are four locks – the main part with chrysalis and three small windows with accessories. The codes for each window are theirs. Now, after opening all the doors of LOL Under Wraps, we saw a doll disguised as a silicone suit, after removing which we can finally see who we got! Surprise Eye Spy UnderWraps Doll Unboxing The L.O.L. Surprise! Eye Spy Series Under Wraps One Saturday afternoon, after my eldest did her homework, we decided to make a treat and unbox L.O.L. Surprise! L.O.L. Surprise! Under Wraps Codes The first stage is that unbox spy glass find L.O.L. surprise! Under wraps codes that will unlock surprises. Exciting! My eldest needed a little help unwrapping the first layers, but she quickly found spy glass and codes, ready to open the chambers in case you carry. Once you find the L.O.L. Surprise! Codes and spy glass can use glass to see different combinations to try to open different locked chambers in the carry-on box. Under Wraps Doll My eldest loved to put on her L.O.L. doll. This one in particular has a headband, earrings, drinks, shoes and clothes. We struggled a little bit to learn our earrings! Overall thoughts! Just like me and my oldest big L.O.L. Surprise fans! Of course we liked this! What I like are innovative ideas for finding accessories. It's a challenge. She was a little impatient and I helped her out a little bit, but secretly I enjoyed testing all the Under Wraps codes on the carry case. I took me a little while the doll is similar to the others we collected and you will get similar accessories, but I like the case for wearing and how it comes with lunch. You can store everything inside the main chamber, which is fab, because small pieces are so easily lost! Just like L.O.L. surprises! Dolls I don't think are a bit expensive and it retails at £14.99 BUT they're very cool and a bit addictive so I can see how for kids, worth it. Keep in mind, like most, when the opening party is over, you are left only with a doll and accessories. Luckily, my gremlin loves his imaginary games and plays with his dolls, so it's worth it. I think most kids will love this new L.O.L. surprise! edition and it will make some very small-minded on Christmas morning. Yes, I said the C-word! Thumbs up from us!
