We'll assume you're ok with that, but you can opt-out if you wish. Adopt Read morePrivacy & Cookies policy versatile? This is an under appreciate when you consider that this incredible clay cookery works for all cooking methods. Yes, everyone. Pampered Chef RockCrok Collection is a collection that changes the way you make ... All, Clay dishes ... I have a beautiful clay roaster from Germany and I love it. It will last forever and the meat cooked in this roaster is melting delicious. But he's nervous. Soak it in water before use. Keep it away from all soap. No hob. Definitely no microwave. It does one thing (even if it does that one thing well), but it only does one thing. Plus, it's a little hard. The Pampered Chef RockCrok set allows me to streamline my kitchen. Fewer tools that do more things means I have more space and spend less time hunting tools. By all cooking methods, what do you mean? RockCrok dishes can be safely used: in an oven up to 752F (your oven doesn't go that high) under a broileron hob – including a glass plate, but don't slide around as the base can scratch your glass hob RockCrok slow cooker stands on the grill grill in the microwave from thawing in the microwave to the hob or oven cooking and then under the broiler to the end... and then rinse it and straight into the dishwasher to clean it! How does it stand up to cast iron? Any special treatment? Like most high quality dishes, they do best when the bottom is coated with liquid or oil and pre-heating is done gradually. Put them over low heat with any liquid or oil you use, and heat them for about 3 minutes per gas range or 5 minutes on an electric hob. If necessary, increase the heat to medium-high on the meat. Rarely is it necessary to rockcrok clayware on a high because the heat heat is so good. Stir and move food so that the bottom is always covered with oil, liquid or food. What's in the RockCrok collection? Grilled stone. Its flat cooking surface has a diameter of 15 inches, making it ideal for grilling flat breads, veggies, nachos and more. Dutch oven This 4-qt. the pot is ideal for family stews, stews and pasta. My rockcrok Dutch oven filled with leftover chillies - from the fridge right into the Everyday Pan microwave. 2.5-qt. one-pan dinner-maker is a kitchen staple. It does tender chicken breast, sirloin and ribs in the oven or microwave. Slow cooker stand. This turns your Rockcrok® Dutch oven or everyday pan into a slow cooker. In addition, you can transfer from the oven or hob to the stand without changing the pot or pan. Great for keeping food warm while entertaining. 4-Quart Slow Cooker Set. Includes Rockcrok® Dutch Oven and Slow Cooker Stand. The base is small and easy to store and the pot works with all small stone grill cooking methods. Its 9 x 9 (12 with handle) square size is perfect for personal-size pizzas, side dishes, and more. Use it on a hob, oven, microwave, broilers or with our indoor outdoor portable grill. What can I do in this clay cookware? Lot. ☺ whole chickens with vegetables Chocolate Ganache Baked BBQ Beans Microwave lava cake twice baked potato casserole bread bread
