Crossword puzzles are a traditional part of many daily newspapers. Since 1913, when Arthur Wynne published the first crossword puzzle in New York World, puzzles around the world have been fascinated by these head-scratching games Source: A Brief History of Crosswords. And it's more crossword puzzles than fun; Some studies have shown that regular solving puzzles like crossword puzzles or Sudoku can help improve your memory, and may even reduce mental decline in older adults (source: Christie). Crossword puzzles are also a great way to improve your vocabulary and general knowledge. Some crossword puzzles are simple, but some are definitely not. The new Sunday crossword puzzle of the New York Times is one of the hardest out there, and it's not for the faint of heart. But don't despair - there are many tricks that can help turn you into a puzzle wizard. Remember that the harder the puzzle, the more satisfying when you fill that final square. Ready to dive in? Read on for the top 10 tips for tackling crossword puzzles. Page 2 Crosswords are a bit like cobwebs; Each answer is linked to others nearby to form a woven network of letters. Pulling on one line of letters affects all the others, too. Most crossword puzzles are naturally divided into multiple groups of up-and-down clues associated with other groups of longer responses. With that in mind, working through a puzzle of one cluster of columns at a time - as opposed to going through the keys at once and then all down the keys - is a good strategy. Every word you fill out will help others decide around it. A popular strategy for testing is to go through all the questions and skip the ones you don't know. And even if they are not multiple options, you can do the same with crossword puzzles - thankfully without being priced at the end. Don't waste too much time tearing your hair for a key you just can't crack. Go to simple because this strategy comes with a bonus: filling in the answers you know will provide emails to those you don't. This greatly narrows the possibilities, especially for hints where more than one response can be applied. The hint will always be written in the same part of the speech as the answer. Check out the tips that require answers ending in S, ED, EST or ING. Often these endings can be penciled in (but not always). Checking cross-check these responses can help in verification if the ending is applied. For example, if the key is both across and down multiple for two responses that intersect on the last letter, there is a chance that the letter is 'S'. Foreign words will be marked directly: Friend: o. - AMI or indirectly, Friend, in France. The abbreviated responses are listed directly: Whistlestop (Abbr.) - STA or indirectly with an abbreviated word as part of the hint, RR stop - STA. These Conventions are the common norm for American-style puzzles.
