Primary Price Answer: We have an incredible style in that all of our videos are free as well as our free student video recap notes from our website (except for selected notes available only on TpT). We consider many factors in our key price: time spent answering questions, whether we had to add additional images or labels (we pulled out all our own pictures), etc. We love special coffee, and we think that if we can fix EVERYONE The main price is in- or a little less than - what you can spend on 1 dedicated coffee drink, then this seems reasonable to us because the corresponding videos and notes of students are already free. The key can offer convenience and help if you are new to the content. Our answer key package combines keys, keys, we set package prices lower than if you bought the keys separately. Separately.
