It fits perfectly in size, length and sleeve length. It was not bulky in appearance, it was relatively low weight and he said it was convenient. But he said it made him warm up... if there is such a thing? He also had a problem with very high front pockets and the collar was a lump due to the closed lid. Even though we went back to it, I intend to get one for me because it was very nice and I don't believe in being too warm. Pros: Cons: Front pockets were awkwardly high. The hood in the neck made the collar a little uncomfortable. Most used for: Will recommend: Yes 0 to 0 find the following review useful. Did it help you? Let! Report abuse Share Taken forever to get (festive season) paid full price for 87 \$ after a sale price was taken the wrong amount sent,then why five stars? The jacket is well worth the price, has an expensive tactical look that makes you notice! I would recommend: Yes 0 on 1 find the following review useful. Did it help you? Let! You didn't say this review wasn't helpful. Do you want to change your vote? Report abuse Partition Jacket works as you expect. The collar with a hood, the fun in it, is quite rigid and does not want to lie on his shoulders, prefers to stick directly to the jacket open. Depending on how you like to wear your jacket, this can be a great or terrible thing. I'm working on repackaging the collar to see if I can help change that. Otherwise, the jacket works quite well it was not in rain at the moment, but I suspect it at least keeps me half-dried. The zipper is functional, but it needs to be swied a little. Considering the price that is not bad Pros: windproof looks on well made. Lightweight and not isolated Disadvantages: Light and not isolated. Be prepared Zippers can be a little nervous on the main sizing for me is a little unusual. But keep in mind that it is best used for; Cover jacket for spring or autumn with a base layer and a middle layer. And waiting for the opportunity for each Mr. Rain I will recommend: Yes 0 to 0 find the following review useful. Did it help you? Let! You didn't say this review wasn't helpful. Do you want to change your vote? Report Abuse Share I bought this because I needed a new rain jacket. It works very well, but I have the zipper at the bottom mess and begins to crumble, although it was compressed once, I hope not again. There was also these little tabs under the hips, and one was caught and torn with little or no effort. Still functioning, just wants to sew it with a harder material. Report abuse share big deal and fast delivery! Quality jacket and not too bulky. Raincoat, warm fleece and lots of pockets. OpticsTay offers the best deal for this jacket. Other places were \$90+! I'm glad I found him here. I would recommend: Yes 0 to 0 find the following review useful. Did it help you? Let! You didn't say this review wasn't helpful. Do you want to change your vote? Report abuse Share Best jacket I've ever had for under \$60! The jacket comes with very useful pockets, is waterproof, and surprisingly warm. The jacket comes with zippers to help cool the core, it also has a layer that does not allow the wind to pass, but somehow manages to breathe and still be waterproof. Keep in mind, buy one size larger than they usually wear, they work small! I hope this little mini review helps someone get out of the fence whether or not to buy one of these big jackets, FYI the normal price of these jackets delivered is about \$90 dollars and I can say clearly that they are worth every penny of this. I was lucky to catch these jackets on sale. I would recommend: Yes 1 of 1 find the following review useful. Did it help you? Let! You didn't say this review wasn't helpful. Do you want to change your vote? Report abuse Share This jacket is great. It is well made, durable and has nice zippers. It's got tons of storage, waterproof, and it's warm. I like that the hood melts if it's not necessary. He also has breathing armpits. Pros: Cons: Most used for: You would recommend: Yes 0 to 0 find the following review useful. Did it help you? Let! It can be worn for many, situations, from practical to tactical, and Optical Planet, is one of the best places to get it. Pros: Price fit, and feel acceptable color, does what it is designed to do. Cons: Most used for: Will recommend: Yes 0 to 0 find the following review useful. Did it help you? Let! You didn't say this review wasn't helpful. Do you want to change your vote? Report abuse Share I love all this jacket..... except for the main zipper. Looks like you're going to rot when you make ends meet. I've got the jacket for about a month. Sprinkle while I was carrying it and the water pushed away. I was wearing it while riding my bike in 63 degree weather and felt zero air flow through it. I've got it from 25 degrees to 71. Very convenient and almost a form of installation. (It extends with you). I had a lot of additions from my colleagues saying they spent double the money on similar jackets (minus all pockets and Velcro). Again, the only problem (and I also heard this from a Youtube editor) is the main zipper of the original hook-up. Otherwise, I'd have given him five stars. Pros: Plenty of pockets waterproof Wind Breaker Cons: Best used for: windy weather Drizzle days would recommend: Yes 1 in 1 found the following review useful. Did it help you? Let! So far, the jacket has been great on windy days. The jacket has many pockets, which gives you a lot of options when preparing for hiking.
