Lionel polar express remote

For the first time in O Gauge, the [™] Polar Express train set is available with remote control operation! Equipped with the new LionChief remote control system[™] by Lionel, engineers young and old have complete control of their Polar Express trains[™] by an easy-to-use remote control. You will feel a difference in the smooth operation of the Berkshire locomotive, and hear more realism in the sounds of the locomotive. Easy to set up Train set, track and wall block power included Ready-to-run out of the box! Easy-to-use Power and Control System Basic Food Wall Food Terminal Way Section with a socket to connect the kid-friendly wall hand-held remotely Run pack over a locomotive on the same track! Separate frequencies available for different LionChief[™] locomotives allow multiple remote engines to operate at the same time LionChief[™] locomotives can also operate on any track powered by a conventional transformer at a lionChief 18-volt constant[™] locomotive the engines can operate at the same time as any engine controlled by Legacy or TMCC on the same layout and 18-volt track referenced in Pere Marquette #1225: The Polar Inspiration [™] and © Warner Bros. Entertainment Inc. Sign up for the Lionel newsletter!
