The perfect review for your college physics course Over 40 million students trust Schaum's outlines for their expertise and useful problem-solving. Written by renowned experts in their fields, Schaum's Outlines cover everything from mathematics to science to language care. The main feature of all these books are solved problems. Step by step, the authors walk readers through coming up with solutions for exercise in their theme of choice. The scheme format facilitates a quick and easy review of college physics 984 solved the problems Of hundreds more practical problems with The Answers Exercise, to help you test your mastery of Physics College Suitable for the following courses: Physics College, Introduction to Physics, Physics I and II, Noncalculus Physics, Advanced Placement H.S. Physics ISBN-13: 9780071754880 Publisher: McGraw-Hill Education Publishing Date: 09/23/2011 Series: Schaum's Outline Series Sold: Barnes and Noble Format: NoOK Book Pages: 528 Sales Rank: 868.463 File Size: 19 MB Note: This product can take a few minutes to download. Content Table1. Introduction to Vectors No. 2. Evenly accelerated movement No. 3. Newton's Laws No. 4. Balance under the influence of parallel forces No. 5. Balance of hard According to Coplar force No. 6. Work, energy and power No. 7. Simple machines number 8. Pulse and Momentum No. 9. Corner movement in the plane No 10. The rotation of the hard body No. 11. Simple harmonic movement and springs No. 12. Density; Elasticity No. 13. Fluids on holiday number 14. Fluids in motion No. 15. Heat extension No. 16. Perfect gases number 17. Kinetic theory number 18. Heat numbers No. 19. Heat energy transfer No. 20. The first law of thermodynamics No. 21. Entropy and Second Law No. 22. Wave movement number 23. Sound number 24. The Law of the Coulomb and electric fields No. 25. Potential; Capacity number 26. Current, Resistance, and Om's Law No. 27. Electricity No. 28. Equivalent resistance; Simple pistes 29. Laws of Kirchhoff No 30. Forces in magnetic fields No. 31. Magnetic field sources Number 32. Induced EMF; Magnetic flow 33. Electric generators and motors number 34. Induction; R-C and R-L Time Constant No. 35. Alternating current no 36. Reflection of Light No. 37. Refraction of Light No. 38. Thin lenses number 39. Optical devices number 40. Interference and diffraction of Light No. 41. Relativity No. 42. Quantum physics and wave mechanics No. 43. Hydrogen Atom No. 44. Multi-electronic atoms No. 45. Nuclei and radioactivity number 46. Applied Nuclear Physics Description Perfect review for your College Physics course More than 40 million students trust Schaum Outlines for their expertise and useful problem solved.
