Prepaid purchase (mobile prepaid, electronic money reboot)5. Trading payment via mobile cash BRIOther features:1. The last 5 transactions of the Mutation2 account. Notification of transactions (send by email or SMS)How to get it?, Just go to the BRI ATM and the nearest BRI office to be registered and download the app directly through the Apple Store.For further assistance, please contact Call BRI at 14017 or 021-500017 Bank Mandiri Credit Card Payment via Internet Banking Mobile Please add dong BPJS payment function via internet banking. Mager, if you have to go to an ATM to pay for it, macasie. We apologise for any inconvenience this may cause. To have access to the bpjs payment feature at Bri Internet Banking, you can choose the Bill Payment menu, then choose the Insurance Menu and choose the HEALTH BPJS Insurance menu. Thanks for not downloading and not using IB BRI either from the internet or apps I advise not to download or use at the same time. Glazed from my experience using apps, and my web-token req at 05.00, then just received SMS 05 (five) hours later, five hours brow ... automatic out of date, and because of my lelet m-token req repetitive2 due to the urgent need for turns at 22:30 pm just got a sms strip tank barrage blajatan emak2 keserempet car in a busy morning, yes, as we know, with the pulse of Si was reduced sektr 10rb, sincerely? It's not nominally, it's a matter of poor service in bad applications.... Crappy... Good afternoon Mr/Mrs., we recommend that mToken requests be made once rather than repeatedly, leading to the sending of sms mToken code received in a row. Bpk/Ibu can make transactions without using mToken through the BRI Mobile or BRImo app on an Android phone. Tks-Heru If for mobile Internet applications still use MToken? Where the use of such a system can interfere with the user's effectiveness, recycling the loan is needlessly useless only to deliver MToken out of bri. For BRI to find a more reliable application developer in solving this problem by being able to model the next bank whose interface is better, use easier, and no costs are used in transactions. In order to mobile banking in order to make it easier for users and to be able to compete with Other. Thank you so much for sharing your experience with us more than once. Thank you for your willingness to use the BRI mobile app service. Your tips will be input to develop the bri mobile app in the future. The developer of the BRI Mobile Support website is an app for various e-banking services provided by BANK BRI that can be accessed via smartphone along with other additional features. This launcher integrates Mobile Banking BRI, Internet Banking BRI, Call BRI, Info BRI and other services into one app. BRI Mobile provides flexibility and convenience for customers to conduct various banking transactions, either through an internet network or SMS as a transaction vehicle. This app is secure because it comes with a personal identification number (PIN) and m-Token to authenticate transactions. The main features of Bri Mobile are: 1. Balance check 2. Transfer within the bank fund 3. Transfer between banks via the local switch network (PRIMA, BERSAMA, LINK) 3. Payment of bills (multifinance, PLN, Telkom, credit card, etc.) 4. Prepaid purchase (mobile prepaid, electronic money reboot) 5. Trading payment via Mobile Cash BRI Other features: 1. 5-up transaction information and account report 2. The daily transfer limit is up to 1 billion rubles, depending on the type of ATM/debit card. 3. Do you send an email or SMS notification of transactions? Just go to the BRI ATM and the nearest BRI office to sign up and download the app directly through the Apple Store, BlackBerry App World, or 'Google Play Store for more help, please contact Call BRI by phone 14017 or 021-500017 BRI Mobile is an app for several e-banking services provided by BANK BRI that can be accessed through smartphones along with other additional features.
