Stihl parts manual free

detailed diagrams and descriptions. With exploded parts view charts, you have access to the most comprehensive diagnostic, repair and maintenance information used by professional mechanics, technicians and repair workshops. The manual is designed to get the information you need quickly and easily. Stihl 026 was first produced in 1988 and is still in production today. It changed its name in 2002 rebranding the company to Stihl MS 260. It is one of Stihl's professional selections of saws. It weighs about the same as a 024, but has a larger displacement, so get the job done faster. The longest bar recommended for 026 chainsaws is 20 inches. Stihl 026 Parts list Manual models (1) 026, (2) 026 W, (3) 026 C, (4) 026 PRO, (5) 026 WVH, (6) 026 Arctic which this parts list covers as minor specification differences between the models. Carburetor A couple of original carburetors for 026 are OEM Walbro K11-WAT, Walbro Wt-194 Carburetor and Walbro WT-426 Carburetor, you can also find a carburetor Carb Repair Rebuild Kit to make life easier. Carburetor Adjustment Screws (LA) Speed screw – This controls the motor speed when idle. If it is set too low, the saw will die. If set too high, the chain will go. This is dangerous. (L) Low speed adjustment screw – This is the low speed beam. This is the adjustment that controls the air/fuel mixture in case of idle. Adjust this screw too rich and the chainsaw will blubber and die at idle speed. Adjust this screw for lean and the motor will starve. The saw will race or wave. An extremely lean adjustment will also cause the engine to die. (H) High speed adjustment screw – This is the high-speed beam. This is the adjustment that controls the air/fuel mixture at high RPMs. Adjust this screw too rich, and the chainsaw will blubber, too lean, and it will over the fox. Safe basic settings Screws (H) and (L) – Turn the adjusting screws (H) and (L) down onto the seats (clockwise). Set them off 1 full turn (counterclockwise) Screw (LA) – Turn (LA) Idle speed screw until the chain stops. Then turn counterclockwise a quarter of a turn. Fine-tuning – Screw (L) Erratic idle behavior; poor acceleration – Inactive setting for lean; turn the low speed adjustment screw (L) counterclockwise until the engine runs and accelerates smoothly. Adjust the screw (LA) again). Exhaust smoke at idle speed – Idle speed setting for rich; turn the low speed adjustment screw (L) clockwise until the engine speed drops. Then turn the screw back a quarter turn and check that the engine still accelerates smoothly when opening the throttle. Adjust the screw (LA) again). Printing ink contains vegetable oils; paper can be recycled. eBayStihl Chainsaw Manual I Chainsaw Parts & Accessories Well that's good. Thanks. I only have 3 backpacks, but this is nice. Thanks Irritech, this is great. Master's degree in thinking out the side of the box. Educated at the MacGyver Institute of Ingenuity The primary function of an Exmark Engineer is to make it difficult for the Manufacturer and impossible for the mechanic Too often... enjoy the comfort of meaning without the discomfort of thought. RTFM What a concept the list is of older Stihl equipment. But that information is great!!! My HS80 is in the list, but my FS90, FC85, BG85 are not in the list. Thanks. Rare things... Holy Crap, where did you find that stuff, lol. There's not much use for me now, but I'm sure that in the end it will, I have zero problems with my stihl thing, but I always try to fix something myself, so I'm sure this will help. [Sigpic] [/SIGPIC] The list is of older Stihl equipment. But that information is great!!! My HS80 is in the list, but my FS90, FC85, BG85 are not in the list. Thanks. Rare things... Refer to the 4180 manual. It contains powerhead info. The reigning mayor of Stupidville THANK YOU for the link, Irritech! Your man! Another long windy herler Posted by Fish Equipment Stolen / Please Help and Look for: 6.5x12 Dual Ramp Trailer with 3 space trimmer rack and two blower racks 2012 21 Honda HRC-216 mower 2013 Exmark Commercial 30 2014 Exmark Lazer Z S Series EFI 52 2008 Stihl FS250R Trimmer 2010 Stihl FS90R Trimmer 200? Stihl FC75 Edger 2014 Stihl KM130R edger and trimmer axles 2013 Stihl BR600 Backpack blower Roger do you have the HS80 service manual? If so, can you share it? Page 2 HS80, ... no manual. Excuse. diysparepartsDOTcom, exploded charts, etc. The link to downloading files has been broken. Any chance you can repost a working link? Looking for manuals for a Stihl FC55C edger and a BG55Z blower. Your help is highly appreciated. -DON- Link to the files download is broken. Any chance you can repost a working link? Looking for manuals for a Stihl FC55C edger and a BG55Z blower. Your help is highly appreciated. -DON- Yer best option is to enter what yer specific problem is fer each machine. A couple of really knowledgeable Stihl guys here who can help you. Have you done a search here and what live ya? Do I understand your question, man, is it hopeless and forlorn? Amf!!
