Collect the necessary materials. Create an item. Send items to your contacts. Detail Walkthrough[edit] The following message will appear when you open the post: This client is looking for a specific link, and sets out not to ask why. As if we would. — Rolis Hlaalu. <Accept the= contract.=> When completing the Writ Alchemist in the highest Solvent Prowess, you may receive a special Closed Alchemy Letter asking you to create a specific acode. This akode will have three necessary elements, compared to the normal Writ Alkes which only requires two. Check the list below for </Accept>Combination reagents are required to make potions and make 16 herbs or poisons. Chemical Skills will be very helpful with this as it allows you to make more potions and toxins from each effort. Once you've created the item, take it to Rolis Hlaalu at the drop-off location in Elden Root, Wayrest or Mournhold for your gift. The following recipe[edit] list shows the combination of ingredients needed to make a herb or poison for the master's writing. Uesp Alchemy Calculator can also be used to find reagent combinations. Potion Master[edit] The master's writing of potions is worth 000055 each. At the highest level of passive chemistry skills you can complete the master herb writing with four Lorkhan Tears and four samples each of the necessary Reagents. Master Poisons[edit] The writings of poison masters are worth 000022 each. At the highest level of passive chemistry skills you can complete master potion writing with just one Alkahest and one sample each of the required Reagents. Hlaalu Alchemical Goods[edit] notes in Mournhold are by far the fastest place to create and degrade some alchemy master writings because the point of delivery of writing can be found relatively close to the store. Quest Stages[edit] A Masterful Concoction Finishes Quest Journal Entry I need to create the item specified by my contract. Destination: <potion name=>Create with the following properties: <trait 1=>, , <trait 2=> <trait 3=>. Progress 0/16. Completing my search has completed the task, and now just need to submit it to receive my salary. Goal: Give Concoction.
