Ask our support team for help. Thanks! Our engineers investigated your problem. Incident number: 18.fecef50.1614233858.1a197024 Most of all U.S. imports used were either in accidents, stolen, flooded, rescued and rebuilt and shipped to Europe or subject to open recall. CARFAX helps you identify hidden problems with imported U.S. torched cars so you don't lose money. For 30 years, Carfax has been collecting data on U.S. vehicles from thousands of sources and helping millions of shoppers of tossed cars reduce the risk of getting stuck with a truck that has costly hidden problems. If you are interested in used U.S. imports, protect yourself with the CARFAX Vehicle History Report from CARFAX Europe, the official CARFAX website in Europe, and the only legal source for authentic CARFAX vehicle history reports. CARFAX is the most trusted source of vehicle history in the U.S. For more than 30 years, Carfax has helped millions of dry car shoppers make better purchasing decisions and avoid costly hidden problems. In addition, Carfax has helped to build trust with its customers and sell its American cars with confidence. With more than 14 billion records, CARFAX has built up its database with the help of its partners and resources, including government agencies, law enforcement, service and repair stores, car dealersies, insurance companies and many more. CARFAX's vision is to change the torched car market for the better. As an independent source that benefits both consumers and dealers, no U.S. self-driving car should be bought without reviewing its history with the help of the CARFAX vehicle history report. Mileage is one of the most common types of fraud in the process of selling torched cars. However, there are ways to detect mileage scams. Although it is difficult for an untrained eye to detect mileage fraud, this is not an impossible task. CARFAX has compiled an infographic and a list of tips to help used car buyers avoid mileage scams. There are several advantages when buying American tossed cars. Depending on the model you are looking for, it is possible to save a lot of money on the purchase price. In addition, due to the huge size of the U.S. market, there are more cars to choose from, and it is also possible to find do and models that may not be available in your country. How important is the service history of the car? What are the possible consequences of buying a vehicle that has not been properly maintained? CARFAX will look at these questions and explain the importance of the vehicle service history as well as where you will find a complete history of service records. I learned through CARFAX before I bought that my future car had 2 damage in the accident, including one complete loss and the side Edition. So I'm leaving out a lot of trouble for €60. Bernd Meyer I had a great idea to try to get a CARFAX report. Immediately on the Internet, paid by credit card and in 10 minutes I received a message. Warning! Problem detected: total reported loss, title/rescue certificate issued. Vehicle imported from California to Lithuania. Peter Stoll CARFAX helped us not fall into unfavourable oppression in 2017 and in 2018 CARFAX helped us become the lucky owners of our dream car. Babs has been with us for a few weeks now and we have a lot of fun with the car. Without the CARFAX report, we'd be somewhere with a lawyer right now in the middle of a legal dispute.
