## Cavitron plus gen-131 manual

The Dentsply Cavitron Plus washer produces 30,000 microscopic small strokes per second at the end of the insertion. This, combined with the acoustic effects of cooling water, creates synergic activity that literally powers away the heaviest calculus deposits while providing emergency operator and patient comfort. Advanced features that make Cavitron Plus a clever investment include wireless foot control, illuminated diagnostic display, flushing setting, and automated cleaning function. Produces 30,000 microscopic small strokes per second Wireless control pedal Steri-Mate® removable sterilisable hand control 30K ultrasonic nozzles Illuminated diagnostic display, flushing setting and automated cleaning function SPS technology automatically adjusts the system's power to ensure consistent stroke of the nozzle, while allowing for the quick insertion of changes Swivel cable with flush control Hands-free control mode to provide maximum ultrasonic scaling experience for patients Maintains clinical power at lower power settings More streamlined, professional appearance Allows irrigation or debris rinsing in the procedure area Provides warm water to increase patient comfort Diagnostic display, which is easy to see the status of the unit's 30K technology, which is more efficient with less noise Quickly and easily read the diagnostic display and adjust the nozzle : Persons equipped with cardiac pacemakers, defibrillators and other active implanted medical devices have been warned that some types of electronic equipment may interfere with the operation of the device. We recommend that you keep the handheld control and cables at a distance of 6 to 9 inches (15 to 23 cm) from any device and its wires. If the best professional judgement of a dental healthcare professional is necessary or considered appropriate, this product should not be used. Technical specifications: 20 to 40 psig (138 to 275 kPa) Minimum setting (CCW) &lt; 15 ml/min, maximum setting (CW) &gt; 55 ml/min accepts all Cavitron 30K ultrasonic inserts Auxillary Foot Control cable: Water supply line length: Position location: Garden city, Idaho, United States shipping to: Worldwide Except: Russian Federation, PO Box, Angola, Cameroon, Cambodia, Cayman Islands, Djibouti, French Polynesia, Honduras, Libya, Mongolia, Ecuador, El Salvador, Suriam, Guyana, Panama, Mauritius, Somalia, Brunei Darussalam, Chad, Madagascar, Caledonia, Western Samoa, Bahamas, Bermuda, Iran, Saint Kitts-Nevis, St Lucia, Trinidad and Tobago, Western Sahara, Wallis and Futuna, Nepal, Bolivia, Mali, Fiji, Gambia Kyrgyzstan, Laos, Papua New Guinea, Republic of congo, Republic of The Saal, Sudan, Guadeloupe, Uganda, Vanuatu, Venezuela, Burma, Antigua and Barbuda, Burundi, Cuba, Republika, Congo Democriské Republika , Kiribati, Reunion, Jemena, Aruba, Belize, Ghana, Grenada, Haiti, Liberia, Nicaragua, Sierra Leone, Central African Republic, Comoros, Martinique, Tuvalu, Dominica, Lebanon, Niger Copyright © 2020 Independent Dental • 501 South Beech St • Sutherland • Iowa • 51058 • (800) 728-0020 Site Developed By: Emagine, LTD 1 Table of Contents 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 22 23 24 25 This website or its third-party organisations use cookies necessary for its operation and are necessary to achieve the objectives shown in the cookie policy. The offer ends on 12/31/2020.Free items will be shipped directly from the manufacturer. The redemption voucher will be included in your order. Ultrasonic scaler (without air polisher) Ultrasonic washer with Tap-On™ technology to reduce leg oblique weight and increase efficiency. One tap on the wireless pedal activates 4 minutes of ultrasonic power or flushing mode, unleashing you to relax or move your foot instead of keeping it on the pedal. Another tap disables ultrasonic power and water flow. Cavitron Plus also has features: SPS technology retains power as scaler end comes into contact with dental surface in Single-push turbo mode increases power to 25% Flushing mode without cavitation, To flush pockets and other debris purge function provides an automatic 2 minute cycle of waterline rinsing between patients Easy readable diagnostic display Autoclavable Steri-Mate hand control device allows to control hand flushing at hand 330° ergonomic swivel rotation reduces the hand strain accepts allron allron 30 kHz inserts. (Do not accept 25 kHz inserts.) Requires: 115v 3-prong grounded wall socket, air and water supply. Dimensions: 4H x 73/8W x 91/2D. Weight 12 lbs. Guarantee: 2 years safco complete satisfaction guarantee You are welcome to use the Cavitron Plus scale on the basis of a full satisfaction guarantee; if you are not fully satisfied with this product, return it within 30 days for a full refund. You can use one in your office on a trial basis; however, we can only accept the return of one unit to the used state. Cavitron Plus is an ultrasonic boiler that maintains the characteristics of the original unit by adding Tap-On Technology, Turbo mode and the finest water Tap-On technology allows the operator to remove the foot from the pedal, avoiding the need for applied pressure. Turbo mode requires one push, which increases the power by 25%; it can also activate handsfree by pushing the foot pedal on the floor. Other features include wireless foot control; autoclaling hand control, 330 degrees; illuminated diagnostic display; Flushing periodont pockets and antibacterial rinsing; and Enhanced BlueZone, expanded the low power range to increase patient comfort when scaling sub-gingivally. The unit has a two-year warranty. Cavitron Plus is indicated for all general supra- and sub-gingival scaling applications, periodonta debridement, and endodontic procedures. Cavitron Plus is a neat, modern design in the familiar blue and white color scheme and simple display. Tap-On technology allowed users to work on cruise control, creating a convenient procedure for the operator. Many hygienists, however, believed that this reduced their responsiveness to their patients, and they preferred to disable this feature. Turbo mode activation using foot pedal ensures continuous scaling. The water control of the hand control offers fine adjustment. Users noted a 5-second delay in the water shut-off after the foot pedal was de-activated. The hand control is easy to assemble and perform purification and scaling procedures efficiently. • This newer Cavitron Plus is quieter than what I currently use. • it's a great all-around ultrasonic washer. • the smooth surface of the device is easily disinfected. • portable between operators. • include two hand controls with the device.
