The hot spots are now properly reflected in both the Rec Games and Neighborhood games. The appearance of 'ninja-style' armbands seen by many players has been updated to reflect their new look for the 2019-20 NBA season. The proper amount of raises is being consumed at the end of the Game MyPLAYER Nation. MyTEAM users can once again quickly sub into their bench lineup in one action. When two players form Duo in MyTEAM, their icon updates are now visible on the player's map when they browse the Lineups menu outside the gameplay. NBA 2K20 Patch 1.08 (edit) PC release date: November 13, 2019 Playstation 4: November 12, 2019 Xbox One: November 12, 2019 Official Patch Notes .edit Improved Performance for PS4 Pro Users. Improvements in MyPLAYER Nation feature in MyCAREER. Help lead your team to the title! Fixed a problem that sometimes prevents users from joining their friends in the neighborhood, and/or sometimes upload a friend's invite to the wrong place. Many, many other fixes included to improve the overall NBA 2K20 experience! NBA 2K20 Patch 1.07 (edit) PC Release Date: October 21, 2019 (257 MB) Playstation 4: October 21, 2019 (18.5GB) Xbox One: October 21, 2019 (37.35 GB) Official Notes have been posted on official social media channels for 2K. To celebrate the start of the NBA season, we are preparing to launch our new MyPLAYER Nation feature! Once the season is officially tipped off, head to MyCAREER to learn more about MyPLAYER Nation and how you can earn 2x VC, 2x MyPOINTS, and 2x icon points by introducing your team! Season 3 is here! Nba 2K League qualifying starts 10/22 and runs through 11/10. Read more: solved a problem in which the controller settings will be reset by the previous default when you make changes and change the neighborhood (for example, joining a friend elsewhere). Many, many other fixes included to improve the overall NBA 2K20 experience! Additional patch note (edit) Additional information about changes in patch 1.07 was received by the community. MYPLAYER NATION - Edit' MyPLAYER Nation is a new seasonal mode in which gamers present their MyPLAYER team in real life as part of a community with other players who also play for the same team. They will play through the NBA schedule, with individual wins and match losses determined by the overall community winning percentage. Along the way, you'll earn double progression on all games as well as other bonuses like the chance to unlock and purchase exclusive Nike shoes. General edit of the latest form and shoes updated is now automatically updated in MyCAREER/MyLEAGUE/MyGM saves. Updated photos for players who didn't have one/was one of their previous team. The gameplay edit reduces the frequency of shots falling to the floor when shooting shots in traffic. Fixed the problem that causes illegal screens to be caused in appropriate circumstances. MyCAREER'edit' Installation MyCOURT on only permission will now allow others once permission has been granted. Users who reach the highest level of shoe approval will no longer need to buy their custom created on COURT shoes. Neighborhood (edit) Entering MyCOURT on a skateboard/bike/etc will no longer restrict the user from immediately exiting MyCOURT if they want to do so. New MyTEAM support for the current Player of the Month card on the MyTEAM Unlimited menu tile. Fixed a problem where the color of the card won't go to the next level in the Lineups menu when the card was paired with your Duo partner. MyGM/MyLEAGUE edits All-Star game must now be properly displayed in the schedule for the current season when the new Start Today mode is launched. Users can now plan practices during the frosty Start Today season (records a case where players will experience a drop in ratings after the first season). Fixed a problem where some users reported turning off the game during game timeouts Online. Turned to cases where some users report that they can not play with their friends in MyLEAGUE Online.
