Teacup chihuahua rescue georgia

There were 34 animals in the house, all roaming free, trampling about in their feces. When the animal received the control call, they were asked to bring their hazmat suits and prepare for the vile state the house was in. 20 of these animals were Chihuahuas, two of them nursing mothers with their nine puppies. We brought them all into our care after animal control seized them from the reckless owner and ticketed him to numerous cases of animal cruelty and neglect. Your support made it possible for us to bring these sweet animals into our care, and it is your support that will make it possible for us to take care of them and take care of thousands of animals like them.
