In the roar of the 2000s, Ringling, a Wisconsin native, burst into a property in this part of Florida and encouraged his friends to follow suit. His winter residence, Cà d'Zan, was modelled on the Ornate Doges Palace in Venice. The museum he built to house his collection of European art, including works by Rubens, Velázquez and Hals, attracted patrons of the art to move to Sarasota. After Ringling's death in 1936, his generous ousylead became Florida's first official museum, and Saraso's position as the cultural heart of america's southernmost state was solidified.
