Evolving product selection: We started with only 12 hat designs, including variations of our B-52 Aviator and our Rabbit Ushanka. As interest began to grow, so did our selection. We now offer 217 styles of men's and women's hats, each style offered in a variety of luxurious fur. We didn't just stop there; we started to expand our wares with not only hats, but scarves, gloves and ear protectors as well. After the success of our fur hats and accessories it was decided that we would expand again and include luxury items such as our capes and stoles. Our latest venture is our line of fur coats, starting with just a few styles. Today we have almost 200 styles of jackets available. We've always appreciated customer feedback, and our products reflect that. Design and innovation: As a fashion company, our goal is to offer the most popular trends. Our stock is constantly changing and new styles and products are regularly added. The demand for real fur products continues to grow and FHW is at the forefront of new and exciting designs. Pricing: We offer products at factory-specific prices in an effort to maximize customer value. Buying products directly from us means that there would be no middleman, no expensive advertising and no overhead like a typical brick-and-mortar store would have. This way we can offer our customers what they want at a price they will love. Fast global shipping: In the beginning, we offered shipping only to the United States and Canada, with the majority of our sales in the United States. In an effort to give our customers the very best, we have negotiated deep reduced shipping costs with our carriers, and we offer express shipping. This allows us to ship our products worldwide in just 1-2 days. Exceptional customer service: FHW values the satisfaction of our customers above all else; it is for this reason that we handle all customer service questions personally.
