DORSETT, DCNO FOR INFORMATION DOMINATION, N2N6// BT #0001 NNNN In Navy Special Warfare and Naval Special Operations there is a class of divers who have special jobs. As a Navy SEAL, these missions require diving, underwater explosives, and long-distance travel submerged as swimmers in SCUBA or in mini submarines. Rarely do SEALs dive deep in the ocean vertically, but they will travel miles horizontally about 15-20 feet underwater. However, on the Navy Explosives Ordnance Disposal side, men and women who dive to disarm explosives (mines, missiles, torpedoes, etc.) will dive in special scuba equipment that is non-metallic to avoid detonating underwater explosives at deep or shallow depths. The Navy Diving community is a rescue diver using air supplied hardhat surfaces as well as open circuits and will dive deep depths to repair equipment, build structures, weld ships (SeaBee Divers), find missing equipment such as aircraft, or even find nuclear weapons. The Navy Enlisted Classification (NEC) system complements the ranking structure listed in identifying personnel about active or inactive tasks and billets in workforce authorization. The NEC code identifies skills, knowledge, talents, or non-ranking qualifications that must be documented to identify people and billets for management purposes. Below is the NEC for Special Warfare community territory / Special Operations: 5301 UDT / Kandidat5304 Joint Terminal Attack Controller (JTAC)5305 Joint Terminal Attack Controller Instructor (JTAC-I)5309 Explosive Ordnance Disposal Mobile Unit (EODMU) Magang5320- 5328 Khusus Khusus Combatant Swimmers Assignment of NECs 5323 and 5326 is contingent upon successfully completing BUD/S training and six months of SEAL Qualification Training (SQT). For SDV personnel, they must also complete the SQT, then add another six months of requirements after reporting to the SDV school or to the SDV team, whichever is earlier. SEAL and SDV mission information contained in the publication of the Navy Special Warfare is appropriate or can be provided based on the need to know from CNO (N761). These missions are usually sensitive material and only military or government personnel with appropriate permits will be able to engage with them. See NAVMILPERSMAN 1220-100 for details on screening and qualifications. The following NEC work skills offered many SEAL (SO) and Special Warfare Combatant Crewmen (SWCC - SB) throughout their careers. Many of these are also non-diving related because these fighters work on land, air, and sea. 5320 Basic Combatant Swimmer5323 SDV Pilot/Navigator/DDS Operator5326 Combatant Swimmer (SEAL)5328 Very Shallow Water Mine Operator (OPERATOR VSW MCM) (APPLICABLE TO: AB, AO, BM, BU, CM, EM, EN, EO, ET, GM, HM, HT, IC, MM, MN, OS, MC, PR, QM, IT, SK, STG, TM)5350 Special Warfare Combatant Crewman (SWCC) Basic5352 Special Warfare Combatant Crewman (SWCC) Advanced5392 Naval Special Warfare Medic (APPLICABLE TO: SO, SB) NEC following is the EOD Diving Community's Underwater Explosives Piece conducted by Naval Explosive Ordnance Disposal is what separates Navy EOD professionals from other military explosives experts. 5330 Apprentice Diver (Student Status) (APPLIES TO: EOD)5332 Basic EOD Technician-Reserves (APPLIES TO: EOD)5333 Basic EOD Technician (APPLIES TO: EOD)5334 Senior EOD Technician-Reserves5335 Senior EOD Technician (APPLIES TO: EOD)5336 Master EOD Technician-Reserves5337 Master EOD Technician5339 Ordnance Clearance Diver 5341 Master Diver (APPLIES TO: ND)5342 Diver First Class (APPLIES TO: ND)5343 Diver Second Class (APPLIES TO: ND)5344 Submarine SCUBA Diver5345 Scuba Diver5348 Marine Mammal Systems Operator5375 Salvage/Construction Demolition Diver (ND / Seabee) To join any of the Navy Diving Skilled Communities within the Navy, see a recruiter and ask to be a part of any of these specific jobs: Navy SEAL, Navy EOD, Navy SWCC, or Navy Diver. Although the SWCC community does not require dives, they are placed in the same group during the pending entry program (DEP) while going through the registration process. They will also have the same fitness tests as Navy SEALs, EODs, and Diver and attend the Navy Special Warfare Prep Course after attending and graduating from Great Lakes Boot Camp. After the Preparatory Course, the four groups will part ways and attend the relevant school for their NEC. Both Navy Diver and EOD through the same dive but will change direction as they progress towards their job descriptions of either rescue divers or underwater explosives experts. Over the years, ratings in the Navy, as well as other services, have changed with technological advances and the need for Navy change over time. Store Keeper's ranking is ranked that way. Maintaining inventory and maintaining supply chains and storefronts for command operations and crew needs is more technical and requires a thorough understanding of computers, databases, and logistics. Thus, the Rank of Shopkeeper (as well as Post Clerk) in the Navy has joined the Logistics Specialist Rank. The work you do in the Navy is called your rank. You may have some specific skills that are also related to that ranking. For example, if a Navy police officer (MA -- Master at Arms) receives special training as a K-9 Dog Handler, he or she will be awarded the NEC MA-2005. From then on, sailors could be assigned to Navy law enforcement duties involving military service dogs. The Navy Enlisted Classification (NEC) system complements the ranking structure listed in identifying personnel about active or inactive tasks and billets in workforce authorization. The NEC code identifies skills, knowledge, talents, or non-ranking qualifications that must be documented to identify people and billets for management purposes. Logistics Specialist (LS) - Store Keepers and Postal Clerks are now Logistics Specialists. They receive basic training in supply and postal related logistics functions. Logistics Specialists are responsible for providing exceptional customer service, operating a financial accounting system, managing inventory of repair parts and general supply supporting ships, squadrons, and beach-based activities to incorporate military postal systems. Advanced training and technology opportunities are available throughout your career development. No more Shopkeepers or Post Clerk Ratings (SK/PC) as in 2009. Culinary Specialist (CS) - Culinary Specialists receive extensive training in culinary arts, hotel management, and other fields in the hospitality industry. Culinary Specialists provide catering and hospitality food service to Admirals, senior government executives, and in the White House Chaos to the President of the United States. This ranking is responsible for all aspects of dining (ship mess deck) and beach duty living room. Culinary specialists work at the heart of the ship, and are essential in maintaining the morale of the high crew on board, construction battalions and every coastal base. Ship Servicemen (SH) - Ship's Serviceman is responsible for managing and operating all retail activities and ship services. including boat shops, vending machines, coffee kiosks (CVN units only), barber shops and laundry operations. They play a big role in morale of the ship. The work of the Supply Community is essential for a military that functions successfully and maintains health and morale. Supplying equipment, spare parts, food, as well as other necessities and entertainment makes orders and deployments with orders much more durable. Bearable.
