The stupid test 3 answers

I have always been a fan of this little mental workout game. I love them. Stupid Test 3 is another one of these games. You can play the game and test your mental skills in addictive games. Stupid Test 3: Take a careful look at each answer and pointer on how to think before choosing the answer. Read the question twice. Once you see the answer and then again. The obvious answer may not be correct. Use pen and paper if necessary. You don't want a computer game that you call stupid, you? Ok I just took three and a half hours of stupid testing. Not half an hour long... I'm half an hour too. But I finished it. I put the type of question behind the answer. Stupid Test 3 Answers.Trick Questions - Wrong Unscrambled - Celery Unscrambled - Bean Progress - [In order] More, Core, Code, Cold Word - Hannah Tricks - Change your position after the second click - be careful when you click. Math - 5 Scrambled - No Scrambled Eggs Unscrambled - Butter Math - Neither (the real answer is 54, not 56. the choice is 54, there are spelling errors in them) trick questions - yes coin collector trick questions - he didn't board the ark (Moses didn't, Noah did) trick question - Earth can't be removed from hole unscrambling - milk unscrambled - macro media (too many' but it's the only answer that works in order - math -4 in order to call it the math. This is tricky - you need to remember the steps - test the memory to see. The button changes its position, so you may need to write down the steps because you remove the instructions after clicking. Be careful when clicking because the button switches positions. Also, if you double-click the yellow button, the second row may appear to have no yellow buttons. Its right between the two green ones (look really careful - use glasses if you need to). Unscrambled - What is roblox's password for the loblock? Jerry Seinfeld questioned by wiki users do he have Parkinson's disease? Asked by wiki users if you were 13 years old when you were born? What is a 50% hin pink laugh to wiki users?
