Action pack benefits download

Microsoft has a well kept secret available called the Microsoft Action Pack. Action Pack subscription costs 475 USD per year and some of its benefits include: Three copies of Visual Studio Professional 10 Windows 10 Profession or Enterprise License 10 MS Office Professional License 5 Microsoft Office 365 Locations 1 Visio License SQL Server License Windows Server 2019 License SharePoint Server Microsoft Azure \$100 Monthly Credit In other words, depending on what you use from action pack It provides thousands of dollars of MS goodies for as little as \$475 USD per year. These products are not test or trial versions - they are all the real deal. To put the Action Pack annual price in perspective, the annual subscription for Visual Studio Professional alone is usually \$799 USD per year. To see the full list of Action Pack benefits, click this link, and then open the Microsoft Action Pack Subscriptions link. This provides an Excel spreadsheet. To see the full list of benefits, open the Microsoft Action Pack tab. The downside is what some, I think, may consider a moot disadvantage to this lot: it forces you to stay up to date. However, this is not bad news, it is good news. Every year, the Action Pack provides the latest and best versions, and you'll be able to keep up. We at ASNA know that many customers don't keep up! (Not us!) Check out action pack as your chance to upgrade from software that should be exhibit at Antiques RoadShow! Extremely good deal! Getting the Microsoft Action Pack subscrip requires you to connect to a free Microsoft partner network. You don't have to be an ISV, and although M&S did follow up with you before granting membership, it seems that any legitimate Microsoft development shop with \$475 USD to spend qualifies. Start with this link to save your trade a ton of money.
