The importance of keeping records in the budgeting and saving process. How to easily keep detailed records of income and expenditure. Illustrate why savings plans are worthless if they don't work hand in hand with your budget. Module #8a complete 1/4 of this module (approx. 30-40 min) Post-Module 8a Vocab Mod 8b-BUDGETING Pre-module theme review Q - What will you learn in module #8b? A – Money habits now have a huge impact on the quality of your life later.. decisions on expenditure. If you don't have savings, how do you pay for unexpected expenses? It demonstrates in an interactive exercise the differences between wants versus needs, and then evaluates each student's expenses to determine which they were wanting rather than needs. Students work through an interactive exercise on fixed and variable costs and then determine which of their expenses have been determined or in exercise, how much variable expenditure can be reduced. The student shows an understanding of impulsive purchasing, and then determines which expenses were impulse spending. Students will go through interactive exercises that illustrate the impact of unexpected spending or our quality of life. The exercise requires each student to list his or her own unexpected expenses. Module #8c complete 1/4 of this module (approx. 30-40 min) Activity #1 Building understanding wants vs. needs – Play Mad Money game under #10 on 3-Links page Mod 8d-FINANCIAL PLANNING Pre-module review topics Close planning ahead for financial issues and retirement. It shows the importance of starting a savings plan early in life. It identifies the importance of discipline when it comes to financial decisions. It demonstrates the importance of making conscious decisions rather than acting on impulse. It explains the importance of understanding the difference in investments and permanently depreciating assets and investing in income-producing assets. It identifies the reason for paying yourself first and illustrates that this key habit can be learned by anyone. It teaches the importance of learning how to make smart decisions when it comes to money by doing your research. Identifies differences in the sources of information available for decision-making. For example, the difference in advertising and the consumer's review of accurate information. It teaches that every consumer is ultimately responsible for their decisions in the consumer market. It teaches you how to tell the difference in legitimate sources of information and biased sources of information. It explains the role of consumer advocates in the consumer market. It evaluates the role of advertising in consumer decisions. It shows that education can increase your earning power. It identifies the key role of pooling interest in building savings.
