Dear Waitown Academy parents, as promised, here is the next part of our plan to start the 2020-2021 school year on August 19. We are confident that this specific information will provide you with the explanation you need years ago. We are very grateful to you for offering your help and encouragement because we have put this project together. The reason you help is that we believe we can take a plan that is the health and well-being of our school community. We've read this street study with your students each of you and talk about the importance of some time fulfilling these guidelines so that every student on campus will have the best chance to rest on campus for the entire year. We really want to keep the student exhibit low so that students won't have to be out of school for a quarantine period. Although we have spent a great time keeping this project together over the past few months, COVID-19 is not our main focus, subject or focus for years. We have spent a lot of time (167 years!) working to fulfill the mission of the Vetoon Academy-to promote the development of students through relationships, understanding and service to the glory of God. Our core mission has not changed, and our live curriculum teachers are always as eager to walk this difficult journey along with their students. Our opening ceremony last weekend demonstrated that we can perform great experiments if we follow all the following instructions that are set for us. God sees us through it, and we are sure that he will work in the lives of students at The Town Academy later this year. Soni Do Gloria, thanks for visiting Steve B!
