Blank map of western hemisphere

WP:MAP is directing us here. To map templates and tools, see Wikipedia:Wikipedia maps. WikiProject is in Wikipedia:WikiProject Maps. ShortcutsWP:BMWP:MAP Here are some blank maps for color and label in different languages. IMPORTANT: .svg (vector) and .png (raster) images may be used on non-animated maps. SVG format SVG is a vector graphics format. SVG has more advantages over PNG in creating arbitrary details or zoom-level world maps, for certain editing purposes, for storing layers, and for recalculating text, curves, and lines. SVG is recommended: see Wikipedia WikiProject_Maps. World Political BlankMap-World.svg: Robinson Projection, National Borders, Grouped Areas. BlankMap-World-with-Circles.svg: Robinson projection showing countries, dependencies, and special status areas where smaller ones are circled. BlankMap-World-Sovereign Nations.svg: Robinson prediction showing only sovereign countries with smaller ones circled. Blank Map World Secondary Political Divisions.svg: Robinson projection, national borders, secondary political boundaries, grouped regions. Historical World in 1959 Outdated BlankMap-World-Equirectangular.svg: Same as above, but in an even-angled projection. World98.svg: First level administrative boundaries of countries, issue 1998, intended for use in the production of other SVG and PNG maps Worldmap_location_NED_50m.svg: Levelling projection produced from natural soil data (country and sovereign regional paths) on the basis of a UN map (2008). Displays disputed edges. 66k World Map for Web Data Visualizations – by @F1LT3R of Hyper-Metrix Robinson projection with US state borders Blank Map of the world without Antarctica Africa File:Africa map no countries.svg National BlankMap-Africa.svg: national borders Africa98.svg: national primary level dividing lines since 1998 Arab World.svg: Map of Arabian-speaking countries Asia98.svg: national primary line-outs 1998 Location map Asia.svg: Asian Grey Location Map, based on national borders since 2009 National Image:Loc bangladesh2.svg – Bangladesh (obsolete because there are 7 divisions in Bangladesh) Wikipedia:WikiProject Maps of India – India Map Project Page. Many maps of India Photo: India-locator-map-blank.svg – India with states. on a separate level and may be removed if necessary. European national picture:Blank Map of Europe (in disputed areas).svg: national borders; the boundaries of disputed areas as a dotted line; Europe's internal borders do not appear Photo:Blank Map of Europe (without disputed areas).svg: national borders, excluding those of disputed territories; Europe's internal borders are not visible Photo:Location European nation states.svg presented: presented borders, with the exception of the boundaries of the disputed territories (but Kosovo is an invisible SVG destination that can be formulated separately from Serbia); Europe shaded differently other regions with internal borders Photo:Blank Map of Europe (polar stereographic projection) demarcated.svg: national borders, excluding the boundaries of disputed areas; Europe shaded differently from other regions and showed internal borders Photo:Europe polar stereographical Caucasus Urals border3.svg: national borders, with the exception of those of the disputed territories; Europe shaded differently from other regions showing internal borders See also commons:Category:Blank maps of Europe commons:Category:Blank maps by country North America north_america98.svg: national primary level divisions from 1998. Note that no lakes are displayed, which makes the Great Lakes area, and Michigan in particular, unusual because administrative (on-water) boundaries are used. National Image:Canada_blank_map.svg — Canada. File:Blank MAP of the United States (States only).svg – United States (including Alaska and Hawaii). Each space has its own vector image, which means that the coloring modes are individually very easy. File:Blank USA, w territories.svg – United States, including all major regions. Caribbean / Central American file: Antilles.svg – Antilles File:Lesser_Antilles_location_map.svg – Lesser Antilles location map Oceania Image:oceania98.svg – very large SVG including Oceania Primary Divisions (Läns/Provinces) in 1998. National File:Coast of Australia.svg Australia notes blank.svg: Australian states since 2011. South America Photo:south_america98.svg - a very large SVG including South American primary divisions (states/provinces) in 1998. Photo:Latin America – First-level political dividing lines.svg – Latin America Photo:Southamerica blank.svg National Image:Brazil Blank Map.svg – Brazilian states. Hemisphere Worldmap_southern.svg: Southern Hemisphere Polar/Orthographic Projection Natural Earth Data Worldmap_northern.svg: Northern Hemisphere Polar/Orthographic Projection of Natural Earth Data PNG form PNG is a raster graphics format. PNG has advantages over SVG, including smaller files (due to less optimal server-side SVG raster conversion), more widely supported and often easier and faster to make simple changes to limits, for example World File:BlankMap-World-large.png – Standard world map. Photo:BlankMap-World-large-noborders.png – above the map without national borders. Photo:World map tracks for shading. PNG – A world map with stripes for shading. Photo:BlankMap-World-Subdivisions.PNG – World Map of National Subdivisions. Photo:BlankMap-World-noborders.png – A world without land borders. Photo:BlankMap-World-UK.png – World with England, Scotland, Wales and Northern Ireland marked. A world with marked continents, not land borders. Based on a map found on the continents. Does not include Antarctica. Photo:BlankMap-World-Continents-coloured.PNG Photo:BlankMap-World-Continents-coloured.PNG continents marked, no land borders, continuum color-coded. Does not include Antarctica. File:BlankMap-World-FIFA.png – A world with the limits of FIFA members. File:Pacific Central Map.png – Pacific Map. Outdated These maps are now obsolete: Image:BlankMap-World.png – World Map, Robinson Projection with Greenwich prime meridian at its center. Microstates and island states are usually represented by individual or a few pixels that are approximate to the capital. all the areas listed in the UN's listing of regions and territories are on display. Quite large – 1480 x 625 pixels, 62,628 sticks. Photo:BlankMap-World-alt.png – Image:BlankMap-World.png version, but includes ancillary projectioners and Antarctica. 1488 x 755 pixels, 35,471 sticks. Photo:Newworldmap.png – Image:BlankMap-World-alt-.png but blue by body of water. 1488 x 755, 37,171 t tues. Photo:Newworldmap-alt.png image version:BlankMap-World-alt.png but with a body of water blue and white land masses. 1488 x 755. Photo:BlankMap-World-v2.png – Image:BlankMap-World.png version, but sovereign microstates (i.e. less than 2,500 km²) are presented to facilitate identification and coloring. 1357 x 628 pixels, 28,549 sticks. Photo:BlankMap-World-v3.png – Version of v2, but using thin lines between islands owned by the same country to color countries in one click – it can be easier to convert large amounts of country data into a map. Photo:BlankMap-World-v4.png – Version of v2, but it also increases the size of other small countries for visibility purposes and uses white boundaries even for micromalles. Photo:BlankMap-World-v4-Borders.png – A version of v4 with boundaries around each country. Photo:BlankMap-World-v5.png V4 version with thin lines from owning the same country to areas against one-click coloring. Photo:BlankMap-World-v5-EU.png – Version of v5, where the EU is one country. Photo:BlankMap-World-v6.png – Version of v4 with sections on additions as well as sovereign areas. Photo:BlankMap-World-v6-Borders.png – A version of v6 with edges around each country. Photo:BlankMap-World-v7.png – Version of v4 with thin lines to join one-click coloring and points for dependencies and sovereign areas (combined content from v5 and v6) in areas owned by the same country. Photo:BlankMap-World-v7-Borders.png – A V7 version with boundaries around each country. Historic 1: Photo:BlankMap-World-1ce.png 820: Photo:BlankMap-World-820.png 1500: Image:BlankMap-World-1500.png .png 1710: Photo:BlankMap-World-1710.png 1840: Photo:BlankMap-World-1840.png 1861: Image:BlankMap-World -1861.png 1866: Photo:BlankMap-World-1866.png 1872: Photo:BlankMap-World-1872.png 1898: Photo:BlankMap-World-1898.png 1912: Photo:BlankMap-World-1912.png 1914: Image:Map_of_the_World_(1914).PNG World War II – World World War II 1918.8: Photo:1918.8_Blank_World_Map.PNG 1921: Photo:BlankMap-World-1921.png 1924: Image:BlankMap-World-1924.png 1935: Photo:BlankMap-World_1935.png 1937: Photo:BlankMap-World 1937.png 1938.1938 13: Photo:BlankMap-World 1938march.png 1938.10: Photo:BlankMap-World 1938.png 1939.3: Photo:Blank World_1939march.png 1939.10: Photo:BlankMap-World 1939.png World War II: Photo:BlankMap-World-WWII.PNG 1942.11: Photo:1942.11 blank world map. PNG 1945.5: Photo:1945.5 Blank world map. PNG 1957: Photo:BlankMap-World-1957.png 1962–1963: Photo:BlankMap-World-1962 .png 1970: Photo:BlankMap-World-1970.png 1985: Photo:BlankMap-World-1985.png – World before the fall of the Soviet Union. The reunification of Germany (including West Berlin) and Yemen, the dissolution of Czechoslovakia and Yugoslavia, the independence of east Timomorians and Eritreans. Nominally since 1985. 1990: Photo:BlankMap-World-1990.png 1993: Photo:BlankMap-World-1993.png 2000: Image:BlankMap-World-2000.png 2005: Image :BlankMap-World-2005.png 2007: Photo:BlankMap-World-2007.png 2009: Image:BlankMap-World-2009.PNG Europe Image:BlankEurope.png – A large map of Europe. 1236x1245px 44.18 KB. Photo:BlankMap-Europe.png – Europe as far as Western Russia, Western Turkey and Cyprus. Some of the smallest states in the world (for example, Monaco, the Vatican) appear as a single pixel. Includes former Eastern Soviet Republics. 450 x 422 pixels, 9,812 sticks. Photo:BlankMap-Europe-v2.png – Image:BlankMap-Europe.png version, but sovereign microstates (i.e. less than 2,500 km²) are presented as circles to facilitate identification and coloring. 450 x 422 pixels, 9,943 sticks. Photo:BlankMap-Europe-v3.png – A europe of unlimited borders, showing parts of North Africa and West Asia. Photo:BlankMap-Europe-v4.png – Image version:BlankMap-Europe-v3.png, but the boundaries are displayed Photo:BlankMap-Europe-v5.png – White background, black edges, blue sea. National picture:Italy.png regions of Italy, 25% recalenering factor proposed. Photo:France.png – French regions, 50% recalenering factor proposed. Photo:Blank map of German states.png – German Läns, 40% re-flight factor proposed. Photo:BlankMap-RussiaDistricts.png Image:BlankMap-EnglandRegions.png Image:BlankMap-EnglandCeremonialCounties.png Image:BlankMap-EnglandAdministrativeCounties.png Image:BlankMap-EnglandAdministrativeCounties1974.png Image:BlankMap-EnglandSubdivisions.png Image:BlankMap-LondonBoroughs.svg Photo:Scotland1996Blank.png Photo:Wales1996Blank.png Photo:GreekPeripheriesBlank.png Photo:BlankMap-Switzerland.png Historic 1990: Photo:Soviet Map.png Africa Photo:BlankMap-Africa2.png – 757x785 px. Photo:BlankMap-Africa.png – 341x341px. National Image:BlankMap-Nigeria-states.PNG North America Photo:Map of usa.png – United States outlines for individual states. Photo:Map USA-bw.png black and white outlines for states, easy coloring of states. Photo:BlankMap-USA-.PNG – U.S. states, a gray and white style reminiscent of Vardion's world maps. Photo:A map of the United States with the contours of the .png – A gray and white map of the United States with the outline of the county. Hi-res 2 color images Photo:USA-state-borders-lower48+2.png – U.S. state outline, Hawaii and Alaska displaced. 2005x1289px, black with transparent. Photo:usa-state-borders-1000.png - The outline of the U.S. state, actual strains, 1000 px wide, black in white Photo:USA-state-borders-4000-transparent.png – U.S. state outline, actual locations, 4000 px wide, black with transparent Sub-national Image:Map of Florida.png – County borders show. File:BlankMap-Florida-Counties.png – A gray map made easy to dye in counties. Caribbean / Central America Image:BlankMap-Caribbean.png – Caribbean, including part of South America, part Central America and part of Florida. Displays the most significant islands, including all small independent countries (such as Saint Lucia or Dominica). 419 x 445 pixels, 3,064 sticks. Photo:BlankMap-Caribbean-in-world.png – Same as above, but added location in the world box. 419 x 445 pixels, 10,514 sticks. National Image:Mexico template.png – Mexican states, 33% recalculation factor suggested. Photo:BlankMap Costa Rica.png – Provinces of Costa Rica, 30% recalculation factor suggested. South American national picture: Argentine provinces, empty.png – Argentine provinces, 30% recalenering factor suggested. Asia Image:BlankAsia.png National Image:BlankMap Thailand.png – Provinces of Thailand, 20% scaling factor suggested. Photo:China Blank Map-1.png – People's Republic of China Photo:China Blank Map-2.png – People's Republic of China Photo:Hong Kong District Locating (Model Map).png – Hong Kong SAR in the People's Republic of China. Photo:BlankMap-.png Image:Macau Parish Locator (Model Map) .png Macao SAR in the People's Republic of China. Commons:Category:Maps of India – India Image:BlankMap-PersianGulf.png – a Gulf region showing the whole of Kuwait, Bahrain, Qatar and the United Arab Emirates, as well as much of other countries such as Saudi Arabia, Oman, Iran and Iraq. 359 x 251 pixels, 3,271 sticks. Photo:BlankMap-Caucasus.png – National borders of the Caucasus region. Historic 1949: Photo:Map of China (1912-1949).png – Republic of China before civil war.png a.png. inhabited outdoor areas useful for representing demographic data from Antarctic Image:Antarctic Map.png – South Button in the middle, also shows the subantracy islands. Hemisphere maps These are achipmuthic orthographic projections from Earth on four sides plus columns. 726x726 pixels, a.k.a. XCFs have separate layers of water, land, coastline, political boundaries, political boundaries over water (not visible in PNG) and latitudes and longitudes (not shown in PNG). Photo:Blankmap-ao-000 -africa europe.png XCF Image:Blankmap-ao-090W-americas.png XCF Image:Blankmap-ao-180W-oceania.png XCF Image:Blankmap-ao-270W-asia.png XCF Image:Blankmap-ao-090N-north pole.png XCF Image:Blankmap-ao-090S-south pole.png XCF Blank maps derived from Martin Weinelt's OMC A domain – It uses GMT (The Generic Mapping Tools) to create maps of public domain vector data. The resulting maps should be public. These maps show elevation and main river, but no modern boundaries. They are intended for use in archaeological/historical contexts (Kurgan, ancient Eastern, Neolithic Europe, etc.). Photo:Pontic caspian blank map.png Picture:Europe 34 62 -12 54 blank map.png Photo:Northern India Blank Map.png Picture:Orient 27 43 2 2 55 blank map.png Photo:Greece 34 43 17 30 blank map.png Photo:Urals blank map.png See also Wikimedia Commons has media related to empty maps.
