If you're a Katy fan, you're going to raise your glass to raise the California Girl! SuperTenders are big fans of Katy, so we've created a special Katy Perry Birthday Martini to honor Katy's 29th birthday. Chill the martini glass in the fridge for a few minutes. Then into an ice shaker cup (just a few cubes) add: 2 oz Vanilla Vodka. Smirnoff Vanilla works well. To shaker cup now add: 1 oz Raspberry Liqueur. Chambord works well, but you can use something cheaper. 1 oz Creme de Cacao. But really, any good chocolate liqueur works well – especially Godiva. 1/2 oz Cream – heavy cream or half and a half work best! Cover your shaker cup and shake the ingredients up to Real Good! Now sprinkle some cake sprinkles onto the plate. Then take a piece of fruit like lime or orange and run along the edge of your chilled martini glass until it is well moistened. Turn the glass around and guide it through the benches so that they stick to the edge of the glass. Try to look beautiful! Now carefully use the strainer and pour the drink into a chilled, candy-coated glass. Then take the champagne or other sparkling white wine and pour a little glass into the top. Now raise your martini glass and make a toast to California Girl's birthday. And remember that always Garnish With Pride! Video Written by Katy Perry, Jordan Houston, Lukasz Gottwald, Sarah Hudson, Max Martin and Henry Walter Produced by Dr. Luke, Max Martin and Cirkut Out of the December 2013 Capitol Katy Perry's powerful vocalsDark trap meets pop mixMood-setting lyrics Dark Horse finds Katy Perry exploring both the darker feeling of her commentary relationships and the use of elements to trap music in a pop song. He has claimed that he almost wanted a witch-style words used in The Dark Horse, which depicts someone who threatens to cry a spell on a potential lover, saying: There is no turning back. This spell is musically lured through the elements of the Southern hip hop trap movement. These include minimalist beat background, shredded and screwed vocal samples increasing the main vocal line, and sweeping strings that feature many trap productions. Katy Perry's vocals are powerful and seductively pull the listener into song. He sings: The perfect storm and a lot of Dark Horse stirs up a cyclone listening to joy. It stands out in mainstream pop radio as nothing more than cookie cutter production. Unfortunately, the addition of Juicy J's featured rap pulls the entire production down. His reference to Jeffrey Dahmer seems unnecessarily tasteless. This is followed by Sleeping Beauty mention that it is cartoonish and seems to miss the character with a strong broadcast of the rest of the Dark Horse. The key rap feature of the past by Katy Perry was the addition of Kanye West on ET, and Juicy J's Dark Horse rap doesn't come close to quality. Kanye West's rap was an important success for E.T. Dark Horse has scaled the charts despite Juicy J's contribution. Fans don't seem happy to forgive the weakness of Dark Horse's rap feature. The song has become the second #1 single from the album Prism. Katy Perry herself is surprised by the song's commercial success. Dark Horse was a long way from being released as an official single. Back in August 2013, an excerpt from the song was released with the single Walking On Air. Fans were asked to choose their favorite and the winner appeared in advance advertising the single Prism. Dark Horse won this race, but it was handed over the honor of being the second official single album. Instead, worse unconditionally was released and it became Katy Perry's first official single to miss the top 10 since 2009's Thinking of You. When Dark Horse was finally released for a third official single, it became obvious fans were right, and the song rose to the top of the Billboard Hot 100. One of the most exciting aspects of the success of The Dark Horse is that it proves that pop fans will follow Katy Perry into new musical territory. Although it does not take big steps outside the lines, the prism is more investigative music than Katy Perry proves that her voice is a powerful enough tool for admission listeners when stripped down and made the center focus a minimalist production. Hopefully this record points towards the next album, which will continue the artist's musical development. The accompanying music video for Dark Horse is a big budget production that suits the pop artist at the peak of his commercial success. Director Matthew Cullen previously earned Grammy awards for directing Weezer's Pork and Beans and Black Eyed Peas Boom Boom Pow. She also directed Adele's striking Chase And Katy Perry's own California Gurls. The dark horse accepts the Egyptian theme. It presents Katy Perry's character Katy Patra who entertains suitors, but soon destroys them when the gifts they present disgruntled her. Some criticised the music video for appropriating Egyptian cultural material. Matthew Cullen defended the work, saying that ancient Egypt is different from modern cultures, being a collective mythology for the world. In June 2015, Dark Horse became the female artist's first music video, surpassing 1 billion views. Dark Horse not only reached the #1 the pop-singles chart. It was a hit in several radio formats. It went #1 mainstream pop, #2 adult pop, and #6 adult contemporary. Dark Horse also topped the dance chart and climbed #16 latin songs chart. It was a top 10 pop smash around the world. In the US, Dark Horse became Katy Perry's first song to spend a full year on the Billboard Hot 100. The song was nominated for a Grammy Award for Best Pop Duo or Group Performance. Performance.
