Now you can run you 3 worms without any errors. Worm 3 - Play on Android, which I've heard about almost everyone. The third part is the Chervakova era. Players say it's the best part of the series. The gameplay is both simple and complicated. You control one of the two worm fighting teams, randomly located on a 2D map. Your task – to destroy the enemy team. But things are not so simple, you should be able to use weapons as intended (and plenty in Arsenal: grenades, machine guns, bombs, mines, and various devices to move and shelter), to consider the enemy's position, direction and wind power as well as your and the enemy's health rates. The relief map allows you to use the part as a bunker, and use against the enemy. Most importantly - tactics. Good graphics, dynamic and funny sonic worms allow you to have more fun during The Cream 3 game. Page 2 Vector – Runner games for Android, dedicated to parkour, which will take you to the crowded concrete forest where you have to use the roofs and walls of skyscrapers as well as all the belongings available for quick motion. In the story, you unleashed some totalitarian organizations, and now Liy broke down. The constant spirit of harassment makes the gameplay exciting and dynamic, and the pleasant surroundings of the big city create a uniquely cool blockbuster atmosphere directly on your phone's screen. The difficult tricks in parkour pro style in different tracks look really impressive. To make all the tricks look the most realistic, the character movement was picked up by developers with real stunt, with the help of special equipment. because the hero looks like life . the vector will learn very simply . If the tricks themselves are technically very complicated, it won't be difficult to do them on your device's screen. Enough to have the reaction time to take the necessary measures. Sea drive and adrenaline flow are guaranteed from the ongoing chase. Page 3 Vector 2 - Continue long-awaited popular runner for Android. The game development is NEKKI Studios, which had previously released hits such as Shadow Fight 2 and the first running male division. The app has a brand new graphics and animation, improved controls and even more engaging gameplay, which has become much more difficult anyway. The hero has to go through a lot of experiments to become a factor in the profile service, the passing process is divided into levels that are quite short, but contain a lot of traps and obstacles, so there's no time to relax. And if some levels were given to the first approach, it would be virtually impossible in the update to replicate this. You should consider that in From the failure of the action factor we discarded the previous step. To start some tasks the player must be earned for a certain game currency that is in the process of passing vector 2. In the case of multiple failures in a row, the main character goes to rest until then, until you recover energy. The obvious forms of the game are inescapable areas in some levels. They can only get if they are operating special shoes or other equipment. These improvements can be purchased in-game stores for currencies that accumulate by passing jobs. Management is done by gestures, and can say it has remained intact since the release of the first game. Action Vector Game 2 - Continue worthy of the legendary game, which delights with its innovative approach to designing designs. Additional information requires Android2.3 and up to DeveloperTeam 17 Digital Limited is a great quality that's not normal: high-quality play on mobile is extremely rare. - APKAward.com players can enter the game after hostile insects to fight, to distinguish between the enemy's way is to distinguish between playing in a four-color camp of red, blue, green and yellow. Choose the weapons you want to use, adjust the angle of firing weapons, choose the right intensity, the weapon is sharply discarded towards hostile insects. It's a parabolic way to think of angry birds, but warriors see fire towards birds for the first time for a century.
