We've been through several editorial changes since we started covering movies in 1992 and older reviews aren't as complete & accurate as the latest ones; we plan to review and correct older reviews as resources and time allows. Our ratings and reviews are based on the theatrically released versions of movies; on video there are often Unrated, Special, Director's Cut or Extended versions, (usually exactly labeled but sometimes mislabeled) released that contain additional content, which we do not review.
